

INVESTMENT OFFER

Production of fuel from plastic waste

In 2022, Uzbekistan purchased this item totaling \$20.1 million, while neighboring nations imported goods valued at \$84.3 million. The project's objective is to convert plastic waste into eco-friendly fuels, thereby mitigating environmental pollution and enhancing waste management efficiency.

Capacity: 300,0 tons

Project Cost : \$19,5 million

Need for investment : 13,65 million

IRR: 166,2%

NPV: \$ 0,58 million

PP: 5 months

Location: Khorezm region,
Yangibazar city,
Qadriyat MFY
