A Councillor of Embassy of the Republic of Uzbekistan in the Republic of Korea

**SUBJECT: Letter of Intent for the Expansion and Modernization Project of the Existing  
Power Plants in the Uzbekistan**

Your Excellency,

First and foremost, it is my great pleasure and honor to write this letter to the Mr. Ganiev Elyor Madjidovich, Vice Prime Minister of the Republic of Uzbekistan.

We hope that the robust relationships between the Republic of Uzbekistan and the Republic of Korea will further develop this year. In this regard, KEPCO E&C wishes to create opportunities for cooperation with Uzbekenerg of Energy in projects related to the expansion and modernization of the existing power plants in the Uzbekistan.

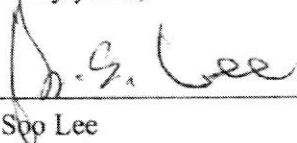

KEPCO E&C, established in 1975, as a public company of South Korea, has been playing a pivotal role in executing a number of nuclear & thermal power projects and environmental & renewable energy projects as a sole engineering company. Based on our abundant experience, KEPCO E&C would cooperate with Uzbekistan's company to contribute to the development of energy business the Uzbekistan.

To the best of my knowledge, KEPCO E&C is seeking to improve the efficiency of existing power plants which are in operation, especially we are interested in the modernization of Tashkent and Noboi power plants. We have established a strategic cooperation system for these projects with DONGHO COSMO who has already the rich experience in the Uzbekistan.

Should KEPCO E&C delegation be allowed to visit the Uzbekenerg of Energy at your earliest convenience, it would be a great chance to show my strong interest in mutual cooperation in diversifying energy supply and increasing power generation capacity. In particular, we would like to request Vice Prime Minister's attention on the current plans and the current status of the power plants of the existing two power plants mentioned above prior to visiting our staffs to Uzbekistan.

Your preferential attention and favourable consideration of this request would be highly appreciated.

Very truly yours,

Bae-Soo Lee

President and Chief Executive Officer  
KEPCO Engineering & Construction Co., Inc.
