

Production of gas silicate blocks

This energy saving material is comparatively new product for local market yet taking advantage of a high demand generated by the boosting construction sector. This products is primarily used for internal purposes, its high energy and sound proof, as well as low weight and easy-to-handle qualities are much appreciated. Production is be based on local raw materials and resource base, benefiting from low operating costs.

PROJECT COST

\$7,3 mln

INVESTMENT NEEDS

\$7,3 mln

CAPACITY

500'000 cubic meters
of gas silicate
production

LOCATION

Surkhandarya region,
Termez district

PROJECT INDICATORS

IRR: 19,6%
NPV: \$5,3 mln

MARKETS

Local market: 100%

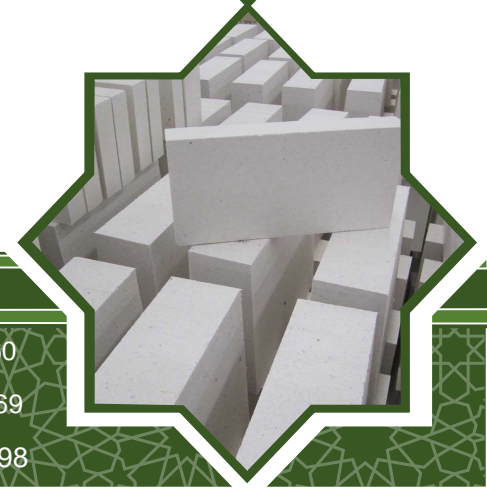

PAYBACK PERIOD

26 months

PROPER INFRASTRUCTURE

Available

Project partner Termez district administration

Support required? - Investment promotion Agency
