

Investment projects developed based on the results of the analysis of the economic potential of the Bukhara region

№	Region	Project name	Capacity		Project cost (million dollars)	Jobs	IRR (%)	PP	Note
			measurement	quantity					
200					614,6	10 186,0	27,8		
	Bukhara region								
1	Bukhara region	Production of liquefied gas	tons	452,38	125,8	123	67,5	60	It is desirable to implement the project due to the shortage of gas in the population and industrial enterprises in the district, gas is mainly supplied from the neighboring Romitan district. Uzbekneftegaz JSC will produce gas on the basis of gas wells deemed inefficient, and compressed gas will be built near the settlements and industrial zones of the district by means of special gas transport equipment, and the compressed gas will be returned to the air and supplied to consumers.
2	Bukhara region	Decorative tiles for facade, pavement, interior	thousand tons	9	2,4	46	25	60	As the number of constructions in the region is rapidly increasing and the need for modern building materials is increasing, there is a great demand for these materials. Taking into account the stock available in the district, it is appropriate to produce this product.
3	Bukhara region	Graphite electrode production	thousand tons	2	5,2	51	29	60	Taking into account that this type of product is 100% imported in Uzbekistan, it is appropriate to produce the product taking into account the available stock in the district.
4	Bukhara region	Production of drip irrigation systems	million pieces, million meters	51,5 323,0	5,3	52	22,6	84	Ketgut, surgical and dental threads used in the surgical field of the pharmaceutical industry are imported in the Republic. Considering the high demand in the domestic market, it is appropriate to implement the project.
5	Bukhara region	Organization of production of needles for disposable syringes	million pieces	1000	7,1	85	21,7	84	The demand for disposable injection syringes used in the pharmaceutical industry in the Republic is 730.0 million units. There are factories producing syringes on the territory of the republic, but needles are not produced. Needles are mainly imported from the People's Republic of China. Taking into account the current demand, it is appropriate to implement the project.
6	Bukhara region	Production of pectin from agricultural products	tn	100	1,0	32	23,6	72	Pectin is a natural concentrate, juice, thickener widely used in the food industry. It is a natural product in the production of various types of juices.
7	Bukhara region	Production of wooden and cardboard boxes	a thousand pieces	3888	1,2	36	25,7	72	There is a high demand for this type of boxes, mainly fruits and vegetables are packed for export, and they are also used for transporting fruits and vegetables in trucks.
8	Bukhara region	Production of puree from fruits	jar	4000	1,8	36	30,7	60	90% enters the domestic market through imports, the value of imports is 6 million dollars. It is appropriate to implement the project taking into account the stock of fruits grown in the district.

9	Bukhara region	Production of fiberglass	thousand tons	9	2,4	46	25	60	In order to increase the energy efficiency of buildings, the need to cover buildings with heating composite products is increasing. Raw materials are sand, soda ash, dolomite, limestone, bur, there is a limestone mine in the district. Also, this product is an import substitute product.
10	Bukhara region	Production of juice from fruit	a thousand cans	2000	1,5	93	36,5	60	80% enters the domestic market through imports, the value of imports is 6 million dollars. It is appropriate to implement the project taking into account the stock of fruits grown in the district.
11	Bukhara region	Production of sulfa wort concentrate from grapes	a thousand dals	2100	1,7	63	34,6	60	The export volume of Uzbekistan's 1-year grape and its processing concentrate is equal to 350 million dollars. The demand for grape concentrate grown in our republic in neighboring countries is increasing day by day.
12	Bukhara region	Milk processing	thousand kg thousand pieces	506,7 1222,0	2,0	32	22,4	72	In the district, kefir, sour cream, cream, cottage cheese are produced through deep processing of milk. There are no large or medium-sized manufacturers.
13	Bukhara region	Meat processing and production of meat products	thousand pieces	325,0 300,0	1,3	37	20,6	84	Despite the annual production of 21,517 tons of meat in the district, sausage products are not produced.
14	Bukhara region	Production of disposable medical gloves	a thousand pieces	60000	1,2	36	23,2	72	There are 2 manufacturers of such products in the republic, and their production covers 57% of the demand in the domestic market. The product is mainly covered by import.
15	Bukhara region	Production of decorative tiles from granite	thousand square meters	250	2,5	67	28,9	60	Due to the rapid development of the construction industry in the region, there is a great need for such decorative construction materials. The district has all the possibilities to implement the project.
16	Bukhara region	Leather processing (production of bags, wallets, cases)	a thousand pieces	375	3,6	77	26,5	72	Bags, purses, and cases made of leather in the republic are mainly imported from abroad. There is a good chance of import substitution as a result of this project.
17	Bukhara region	Sublimation drying of fruits and vegetables	tn	2,88	2,1	40	31,1	60	During the months of January-April 2023, 359.2 thousand tons of fruit and vegetable products with a total value of 256.1 million dollars were exported to foreign countries in the republic. This is 6.5% more than in the corresponding period of 2022. Macroeconomic and regional research analyzes According to the report, the largest share in the export of fruits and vegetables in terms of value is mash - 13.7 percent, raisins - 10.4 percent, dried black plums - 7 percent, tomatoes - 6.1 percent, cabbage - 5.1 percent, fresh cut grapes - 4.3%, onion - 4.3% and pomegranate - 3.3%. In January-April 2023, the share of fruits and vegetables in the total volume of exports was 3.3 percent.
18	Bukhara region	Poultry development (eggs and broilers)	thousand pieces, tn	24 950,00 2 785,0	1,9	78	39,2	60	The number of poultry in the district is 156,000 and does not fully meet the needs of the district. In 2022, 27,000 eggs were produced in the district, which is considered a very low indicator. Therefore, it is desirable to grow poultry meat and eggs.

19	Bukhara region	Production of polypropylene euro bags	million pieces	18	1,2	52	34,2	60	There is a need for modern euro bags by existing manufacturers in the republic.
20	Bukhara region	Waste sorting and processing	thousand tons	37,5	0,9	37	43,3	60	As a result of the sorting of household waste in the district, PET and PP secondary granules, biohumus, briquettes from horn shavings, textile secondary raw materials, glass, secondary paper are produced. These products are in high demand. The annual waste volume of the district is 3,700 tons, and its current stock is 60,000 tons.
21	Bukhara region	Pasta production	thousand packs	2880	0,2	63	42,2	48	There are small pasta producers in the district, the demand for this product is constantly growing, and part of the pasta products comes from abroad. It is desirable to produce high-quality pasta products in accordance with the current demand in the district and province.
22	Bukhara region	Production of plastic containers, buckets, tanks, etc	a thousand pieces	165	0,5	20	26,6	72	Various types of plastic containers, buckets, plates, etc. for household consumption. There is a need for such consumer goods in the district.
23	Bukhara region	Scotch production	thousand kg, thousand rolls	1440,0 864,0	0,9	31	21,2	84	Scotch products are widely used in the economy and other industries and are always in demand. Raw material glue is domestic and film is imported. 50% domestic market 50% export.
24	Bukhara region	Production of bread and bakery products	thousand pieces, thousand kg	700,0 457,0	0,2	11	43,2	48	35,300 tons of wheat are grown, of which 25,000 tons of flour are obtained. Considering the high demand for quality flour and bread in the district. the number of inhabitants is more than 100,000, which shows the great demand.
25	Bukhara region	Establishment of an industrial refrigerator for the export of fruits and vegetables	tn	600	0,5	11	22	84	26,000 tons of fruits and 15,000 tons of vegetables are grown in the district. It is desirable to establish a refrigerator in the district in order to ensure price stability, to provide the population with quality food products throughout the year, and to increase export opportunities.
26	Bukhara region	Production of sugar and candy	million kg	702	0,4	15	33,8	60	It is made from sugar, starch syrup, flavoring, milk, vanilla. There is a constantly growing demand in the domestic market.
27	Bukhara region	Production of waffles	million packs	1,35	0,2	15	37,6	60	35,300 tons of wheat are grown, of which 25,000 tons of flour are obtained. Almost no such products are produced in the district.
28	Bukhara region	Production of school backpacks	piece	85500	0,5	74	34,6	60	There are 50 schools and 2 vocational schools in Peshku district. 21,705 students study in them. It is planned to enter not only the district supply, but also the regional market and the republic market through the implementation of activities organized in the territory of the district. The products are manufactured from leather and textiles and the raw materials are available in the district. Accessories are sourced from China. Sales are 100% domestic.

29	Bukhara region	Production of dry fodder products (for poultry and livestock)	tn	7500	0,8	19	23,2	84	It is produced from grain, barley, corn, soy, alfalfa, and meal. The demand for this type of product is always high for the development of livestock and Poultry development sectors in the district and region.
30	Bukhara region	Breeding and cultivation of various useful species and varieties of fish	tn	1,8	0,5	20	27,2	60	There is Karakyr Lake with an area of 23.7 km2 in the district, and there is a wide opportunity for the breeding and cultivation of various useful species and varieties of fish. The taste and quality of the fish grown in the lake is much higher than that of the fish grown in the pond, and it is more popular. Within the framework of the project, it will be possible to supply the district and region with quality fish. 100% domestic market.
31	Bukhara region	Production of men's and women's napkins	million pieces	12	0,2	72	36,3	60	Raw materials are available in the province. The project is low-cost and 100% export-oriented.
32	Bukhara region	Production of tomato paste	million banks	1	1,5	93	31,2	60	Production of tomato paste and preserves during the processing of tomato products grown in the district.
33	Bukhara region	Production of disposable containers	million pieces	18,6	0,4	14	31,6	60	Currently, the demand for such products has increased several times from a sanitary and hygienic point of view. There are no such producers in the district and neighboring districts.
34	Bukhara region	Syntheophone production	thousand tons	1	0,9	17	31,9	60	It is obtained as a result of processing secondary polyethylene granules. Raw materials for tekstil are used in blankets and pillows, soft toys. There is demand in the domestic market.
35	Bukhara region	Production of kiriyeshki semechki	million packs	2,5	0,3	17	32,8	60	There is no manufacturer of such products in the district. As a result of the implementation of the project, it is possible to supply neighboring districts.
36	Bukhara region	Furniture production	piece	6300	0,7	22	33	60	In addition to the district, the demand for furniture products is increasing at the time of rapid development of construction processes in the region. Production is organized with the involvement of modern computer technologies.
37	Bukhara region	Production of women's and men's socks	million pairs	5,4	0,5	29	26,5	60	This product is a consumer product and is in high demand. Currently, this product is almost not produced in the republic and is mainly imported from Turkey and the People's Republic of China.
38	Bukhara region	Production of pots, pans, cans, etc	a thousand pieces	261,36	0,5	18	22,4	72	This product is a consumer product and is in high demand. Currently, this product is not produced in the republic and is mainly imported.

39	Bukhara region	Production of children's toys	a thousand pieces	864	0,4	22	28,3	72	This product is mainly imported from China. By organizing production in the district, import-substituting toys are produced and domestic demand is partially satisfied.
40	Bukhara region	Production of carbonate hydroxide fertilizer based on limestone	million sq.m	6	6,0	257	30,6	60	Lime fertilizers are a mixture of substances and substances containing calcium, sometimes magnesium compounds (carbonates, hydroxides, oxides), which are used for liming acidic soils and as a source of calcium and magnesium in plant nutrition. Available in the district and region It is a widely used tool for tillage, plant nutrition and protection in the field of agriculture.
41	Bukhara region	Establishment of livestock complex, processing of meat products, production of Tushyonka (reprocessed and canned meat) products, complex on an area of 10 hectares	tn, million liters, thousand units	630,0 3,6 800,0	5,1	36	25,9	72	A total of 144,100 large cattle are raised in the district, and meat production is 24,800 tons. Taking into account that there are sufficient conditions in the district for the establishment of meat processing activities, and considering that the livestock industry is one of the driving points of the district's growth, it is appropriate to start the production of meat products. 100% domestic market.
42	Bukhara region	Coir processing organization Coir cluster	tn	900	10,4	121	23,9	72	218.2 tons of cocoons are grown in the district per year. The cocoon is sold as raw material in the district without processing. The district has opportunities to produce silk fabric by processing cocoons. 90% export and 10% domestic market.
43	Bukhara region	Poultry complex (egg and meat, feed production) per 10 ha	thousand pieces, tn	36 272,0 5 052,0	5,1	78	30,7	60	There are 73,103 poultry in the district, and 41,810.6 thousand eggs are produced. This district provided the internal needs. Therefore, there is a need to organize a quality poultry meat and egg production complex based on the available opportunities. 50% export, 50% domestic market.
44	Bukhara region	Organization of knitwear and fabric dyeing activities	thousand kg	3116	23,9	325	15,7	96	Several textile and textile enterprises with production capacity of basic industrial products operate in the district. These are large industrial enterprises such as "Vobkent fiber cluster" LLC, "Bukhara Agrocluster" LLC, as well as "Kumushkent" LLC, "Shamshirgaron Effekt" LLC. The share of textile and textile industry products in the total export is 84%. This, in turn, is a sign of the high demand abroad for the manufactured products. Within the framework of the new project, it is planned to create more than 200 new jobs and significantly increase the volume of exports due to the implementation of the knitted fabric production and dyeing project. 70% export, 30% domestic market.
45	Bukhara region	Organization of production of ready-made sewing products (Jumpers, sweaters, T-shirts)	a thousand pieces	1252,8	5,3	151	15,8	96	There are a number of enterprises producing knitted goods in the district. Most of them export the fabric as raw material without transforming it into a finished product. Therefore, it is desirable to produce finished products using the available raw material base effectively. This, in turn, brings additional income. 30% export, 70% domestic market.
46	Bukhara region	Organization of production of medicines in the form of tablets and capsules (production of syringes and needles)	thousand packages, million pieces	8501,1 330,0	8,3	192	28,7	72	The demand for single-use injection syringes used in the pharmaceutical industry in the Republic is 730.0 million units per year. There are factories producing syringes in the territory of the republic, and their production capacity is only 57% of the demand in the domestic market. Also, none of them produce needles. Needles are mainly imported from the People's Republic of China. It is appropriate to implement the project taking into account the current demand. 15% export, 85% domestic market.
47	Bukhara region	Establishment of a hydroelectric power station (GES).	million kWh	36,72	5,1	55	13,2	84	The availability of electricity and its continuity is the main factor for the activity and development of the industrial sector. In the district, there is an opportunity to build small (mini) hydropower plants on the north-western branch of the Khairabot canal and on the Vobkent canal. In 2022, the demand for electricity consumption was 146.9 million kWh, the actual supply was 142.1 million kWh, and the deficit was 4.8 million kWh. Taking into account these indicators and the possibilities for the implementation of the project in the district, it is appropriate to build a small hydroelectric power plant. 100% domestic market.
48	Bukhara region	Establishment of a logistics center (motel, household service, trade, car service, refrigerator, general catering, electric car charging station) on the 2nd square	a thousand people, a thousand tons	7,2 3,6	6,3	91	25,1	60	A distance of 20 km of the M37 road of international importance Samarkan-Bukhara-Turkmanboshi passes through the territory of the district. There is no service and service complex on the side of this road and in the parts of the road that pass through the territory of neighboring districts. Considering the fact that this road is of international importance and the volume of traffic, there is a need to organize a high-quality service and a service complex. 10% domestic market, 90% export.

49	Bukhara region	Production of sandwich panels (50 sotok building will be provided in the industrial zone)	thousand square meters	750	5,0	98	24,8	72	All districts of the republic are engaged in the production of agricultural products, and throughout the year, the construction of modern refrigerators for the provision of high-quality fruits and vegetables at affordable prices to residents and consumers, as well as for the storage of export products, is increasing. In addition, sandwich panels are widely used to cover the walls of quickly built modular constructions. This, in turn, leads to an increase in the need for sandwich panels. Currently, mainly sandwich panels are imported from foreign countries. Therefore, it is appropriate to implement a project for the production of high-quality sandwich panels. 100% domestic market.
50	Bukhara region	Mix and samorez production	tn	1209	1,6	22	12,1	96	During 2022, 1,114,850 tons of nails and nail products with a total value of 58997.9 thousand US dollars were imported in the Republic. It can be seen that there is a great demand for this type of product in the domestic market, and the volume of products produced by local producers is not able to fully satisfy the demand. Therefore, it is appropriate to implement this project. 100% domestic market.
51	Bukhara region	Fruit juice production and packaging (juice and jam)	a thousand cans	1700	1,2	93	30,4	72	80% of fruit juice enters the domestic market mainly through imports, the import value is 6 million dollars. Considering the stock of fruits grown in the district, it is appropriate to implement the project. 100% domestic market.
52	Bukhara region	Secondary cotton processing and yarn production	thousand tons	800	1,5	34	19,8	84	As a result of the introduction of modern technologies, it is possible to implement a project for the production of low-grade cotton and yarn from secondary cotton. It is appropriate to implement the project, taking into account the availability of the raw material base in all districts of the republic and the demand for the product in the domestic and foreign markets. 50% export and 50% domestic market.
53	Bukhara region	Production of sugar from sugar beet	million tons	5	2,2	65	33,1	60	Due to the seasonal increase in the demand for sugar, the price is increasing in the republic. The volume of products produced by local manufacturers does not meet the secondary demand. Despite the cancellation of all customs duties on sugar imports by the government, the need for the product is not fully covered. It is possible to produce high-quality sugar products by growing sugar beets and processing them on the lands freed from grain in the district. This, in turn, serves to provide the population with quality sugar products and stabilize the price. 100% domestic market.
54	Bukhara region	Processing of sheep's wool (production of fur products and thermal insulation materials)	thousand tons	650	1,7	29	14,1	72	Due to the rapid growth of construction works in the republic, a number of decisions taken by the government on the use of energy-efficient materials in construction, the demand for thermal insulation products has increased several times in a short period of time. This product is mainly imported from abroad. 107,686 sheep and goats are raised in the district. It is necessary to start the production of high-quality thermal insulation materials from their wool using the available opportunities. 100% domestic market.
55	Bukhara region	Bread and bakery products (large-scale production) in analogues of Koksaroy and Paskual	thousand pieces, thousand kg	2100 1605	1,4	48	25,1	72	The population of the district is 145,900 people, and there is no enterprise for the production of quality bread and bakery products in the district. As a result of the implementation of this project, bread and bakery products will be provided by opening official sales points in the neighboring districts. 100% domestic market.
56	Bukhara region	Production of MDF panels and doors (from Guzapoya)	a thousand pieces	288	3,1	48	31,7	54	Due to the fact that new modern constructions are being carried out in the district, the need for modern construction materials is increasing. In particular, the need for MDF doors and panels has also increased. Cotton is grown on 3,000 hectares of land in the district. At the same time, in connection with the use of alternative energy sources by the residents of the district, the demand for raw materials of cottonwood will decrease. It is possible to produce quality doors and panels from this product. 100% domestic market.
57	Bukhara region	Production of paper from straw	thousand tons	550	1,8	26	19,8	72	Grain is grown on 6,210 hectares of land in the district. Grain straw is used only as fodder for livestock and is almost never processed. As a result of the processing of these raw materials, it is possible to produce high-quality paper, meet the demand for paper in the domestic market, and save foreign currency by substituting imports. 100% domestic market.

58	Bukhara region	Reinforced concrete products	thousand units, sq.m	45,0 102,1	1,5	36	31	60	There is no reinforced concrete production enterprise in Vobkent district. At the same time, there is a large reserve of sand and gravel raw materials, which are the basis of reinforced concrete products, in Shafirkon district, bordering the district. Taking this into account, it is appropriate to organize production. 100% domestic market.
59	Bukhara region	Production of sanitary and hygiene products (soap, shampoo)	million units, thousand packages	4,32 144,0	1,4	34	29	60	Sanitary and hygienic means are mainly imported from abroad. The volume of products produced by local producers does not fully satisfy the demand in the domestic market. 100% domestic market.
60	Bukhara region	Organization of drying, sublimation and packaging of fruits and vegetables	thousand tons	2,88	1,8	40	34,3	60	During the months of January-April 2023, 359.2 thousand tons of fruit and vegetable products with a total value of 256.1 million dollars were exported to foreign countries in the republic. This is 6.5% more than in the corresponding period of 2022. Macroeconomic and regional research analyzes According to the report, the largest share in the export of fruits and vegetables in terms of value is mash - 13.7 percent, raisins - 10.4 percent, dried black plums - 7 percent, tomatoes - 6.1 percent, cabbage - 5.1 percent, fresh cut grapes - 4.3 percent, onions - 4.3 percent, and pomegranate - 3.3 percent. In January-April 2023, the share of fruits and vegetables in the total volume of exports was 3.3 percent. 100% export.
61	Bukhara region	Organization of milk processing (milk, kefir, sour cream cottage cheese)	thousand pieces, tn	1222,4 506,7	2,0	32	22,7	72	In the district, 115,000 tons of milk is produced and almost not processed. Kefir, sour cream, cream, cottage cheese are produced by deep processing of milk. There are no large or medium-sized manufacturers. 100% domestic market.
62	Bukhara region	Expansion of production activities of drip irrigation technologies	a thousand meters, a thousand pieces	96 900,00 14 678,00	1,6	36	25,2	72	In the period of global warming, in our country, like the rest of the world, appropriate decisions have been made about water conservation, and attention is being paid to the wide application of drip irrigation in the irrigation of fields and gardens. Therefore, there is a great demand for drip irrigation systems in the domestic market. In addition, the raw material base is also available in the republic. 100% domestic market.
63	Bukhara region	The production of electric household appliances (tefal, hair dryers, plastic cases are produced) is assembled.	a thousand pieces	140,16	1,2	74	34,6	60	Bringing and production of high-quality and modern components for import-substituting products. Raw materials are partially available. 100% domestic market.
64	Bukhara region	Escalator production (there is an elevator production, additional escalator)	kit	350	1,5	33	32,8	60	The need for escalators in modern high-rise buildings in the republic is increasing. There is an elevator manufacturing enterprise in the district, based on which, as a result of the expansion of production, it is desirable to organize the production of escalators. 100% domestic market.
65	Bukhara region	Production of furniture products	a thousand pieces	225	1,5	78	33,9	60	In addition to the district, the demand for furniture products is increasing at the time of rapid development of construction processes in the region. Production is organized with the involvement of modern computer technologies. 100% domestic market.
66	Bukhara region	Production of solar water heating equipment	thousand sets	10	1,1	45	27,7	60	Bringing and production of high-quality and modern components for import-substituting products. Raw materials are partially available. 100% domestic market.
67	Bukhara region	Production of children's strollers and scooters	a thousand pieces	60	0,7	22	28,2	60	Bringing and production of high-quality and modern components for import-substituting products. Raw materials are partially available. 100% domestic market.

68	Bukhara region	Production of blinds for windows	thousand square meters	200	0,9	26	27,7	60	Bringing and production of high-quality and modern components for import-substituting products. Raw materials are partially available. 100% domestic market.
69	Bukhara region	Bumaga, production of napkins	thousand packs	16434	0,8	21	30,1	60	It is possible to organize production as a result of secondary paper processing. There is a great demand for such products in the domestic market. 100% domestic market.
70	Bukhara region	Production of notebooks and paper products	million pieces	2,2	0,3	17	28,8	60	In the district, as well as in the whole region, the demand for educational materials, especially notebooks and paper products, is increasing day by day. This product is mainly imported from abroad. 100% domestic market.
71	Bukhara region	Production of fruit and potato chips	million packs	1,6	0,7	32	31,7	60	Fruit and vegetable crops grown in the district are hardly processed. However, this type of product is delivered across the country against import. Therefore, it is necessary to increase the production and variety of such products. The raw material of the product is available in the district. 100% domestic market.
72	Bukhara region	Production of toys	a thousand pieces	945	0,7	25	21,1	84	This product is mainly imported from China. By organizing production in the district, import-substituting toys are produced and domestic demand is partially satisfied. The raw material base of the product is available in the region. 100% domestic market.
73	Bukhara region	Glass processing cutting, engraving and processing	thousand square meters	140	0,4	15	33,3	60	As a result of the introduction of modern technologies, engraving various logos and inscriptions on glass and glass products. 100% domestic market.
74	Bukhara region	Processing of paper waste and production of cardboard	tn	1500	0,5	20	30	60	It is possible to organize production as a result of secondary paper processing. Cardboard papers are mainly used for packaging and packaging. There is a great demand for such products in the domestic market. 100% domestic market.
75	Bukhara region	Production of laminate flooring and linoleum	thousand square meters	400	1,0	22	27,9	60	Bringing and production of high-quality and modern components for import-substituting products. Raw materials are partially available. 100% domestic market.
76	Bukhara region	Intensive mushroom cultivation champignon 1000 sq.m. in the building	tn	300	0,3	26	31,8	60	Since champignon mushrooms are a pleasant and tasty dish, they are liked and eaten by people of all ages. Currently, the production trend of this product is very low, and it hardly meets the demands of the domestic market. In this regard, it is appropriate to organize the production of this product. 100% domestic market.
77	Bukhara region	Production of thermal panels for the facade	thousand square meters	200	0,3	22	31,7	60	It is thermal insulation made of polyurethane or polystyrene materials and consisting of various decorative layers.
