

Breeding scorpions and obtaining poison

Scorpion venom is the most expensive liquid in the world. The amount of scorpion venom used in one bite is estimated at 13 euros. In modern pharmacology, scorpion venom is highly valued, the cost of which reaches 10 million dollars per liter and is a valuable raw material for the production of immunosuppressants and drugs that fight malaria.

Capacity: 1.5 kg

Project cost: \$1.33 million.

Investment requirement: \$1.08 million.

IRR: 134%

NPV: \$25.7 million

PP: 38 months

Location: Tashkent city
