

Investment projects developed based on the results of the analysis of the economic potential of the Navoi region

№	Region	Project name	Capacity		Project cost (million dollars)	Jobs	IRR (%)	PP	Note
			measurement	quantity					
124					495,4	5 852,0	16,1		
	Navoi region								
1	Navoi region	Leather processing	sq.dm	4000000	0,7	34	6,1	59	The district produces 346,155 sheep and goats , 640 tons of wool, 56,541 pieces of Karakul leather. These skins are practically non-recyclable. High-quality oak bark products are always in demand both in the domestic and foreign markets. 100% domestic market.
2	Navoi region	Establishment of a thoroughbred horse farm	head	60	0,9	15	6,4	36	The area has all the facilities for horse breeding, and 5,483 horses are currently being bred. Creation of a breeding horse company for 200 heads. Horse meat processing and production of horse meat products are achieved. 100% domestic market.
3	Navoi region	Production of glass products by processing quartz sand	tn	30	3,3	99	9	48	Reserves of raw quartz sand in the area of 34183.1 a thousand tons. The demand in the domestic and foreign markets currently accounts for 50% of the domestic market. 50% of the external market
4	Navoi region	Granite processing	m3	30000	10,0	50	17,9	72	Reserves of Granite raw materials in the area amount to 1200 thousand m3 due to the rapidly growing pace of construction, the need for granite stones, less frost-resistant, less water-absorbing, is increasing. Raw materials are available in the area. 100% domestic market.
5	Navoi region	Obtaining natural pigments (Ochra) from the deserts of the region and using them as paint in construction	tn	6000	3,9	35	11,6	57	Given the growing number of construction drawings (ochre), it is necessary to produce products for use as paint. Raw materials are available in the area.100% domestic market
6	Navoi region	Establishment of a small number of hotels for tourists in Tomdi district	trip to work	8100	0,5	10	11,1	60	The population of the district is 15,800 people, due to the lack of hotels for tourists in the area, high demand for hotels in the area today is necessary for the organization of domestic tourism to 10 thousand people by the end of the year. There is every chance of this
7	Navoi region	Organization of salt processing	tn	12480	0,9	22	10,8	43	."There is a salt mine in the district and there are all possibilities for the implementation of the project. 100% domestic market mineral salts for salt processing 124.1 there are reserves of a thousand tons of raw materials"
8	Navoi region	Organization of tourist routes in the desert region, including hiking and horseback riding, as well as hot air balloon and motorcycle tours	thousand dollars	500000	1,5	38	3,9	58	The area was not visited by tourists due to the lack of a hotel for tourists. In total, tourists will need 1 hectare of land. 100% domestic market.more than 25 new jobs will be provided to unemployed residents, there is every chance for this

9	Navoi region	Production of cement concrete	cubic	17740	1,3	28	21	60	To implement this project, 1 hectare of land will be required in the area. Due to the high demand for serobitone products for construction and roads, if the project is implemented, more than 32 jobs will be created in the district.
10	Navoi region	Establishment of specialized enterprises engaged in meat and milk processing in the desert	meters TN / l / pcs	630/ 3600/ 800 000	5,3	36	16,3	72	The district saves on animal husbandry, in January-March 2023, 2,393 tons of live meat will be received, 318 thousand tons of milk. When creating specialized meat and milk processing enterprises, more than 5,000 tons of meat will be received, 500 thousand tons of milk. 100% of the domestic market. all possibilities are sufficient for the implementation of the project
11	Navoi region	Sandwich panel production	sq.m	900000	15,0	300	11	55	There is a low power supply capacity in the area during the implementation of large production projects. The Tomdi 35/10 NS can provide only 2.5 MW of power consumption. This, in turn, leads to the fact that local entrepreneurs or foreign investors are implementing projects in other regions precisely because of the low power output. Due to the high demand for energy resources, the project must be implemented. Oil shale in the fog
12	Navoi region	Shale mining and production of products from it	sq.m	400000	14,5	144	4,1	72	The available reserves of raw materials amount to 242506.1 m3, while the extraction of oil shales and the production of products from them are not organized in the area. Raw materials are available in the area. 100% domestic market."
13	Navoi region	Mining of phosphorite and production of phosphorite flour	tn	150000	17,5	175	4,5	96	It is widely used. It is mainly needed in the metallurgical industry for the production of refractory crucibles and the surface of molds in the electrical industry - for the production of electrodes and arc coal, can be used in the production of pens, black ink, black copy paper, printing ink, Chinese ink. Reserves of phosphorous raw materials: 6355.0 thousand tons. The mining and extraction of phosphorites is organized.
14	Navoi region	Organization of sheben production from granite waste	m3	127500	0,5	27	4,7	60	Granite reserve in the area: 1200 thousand m3 in the area of granite fragments, so that granite fragments do not go into waste , shebenovo needs a daily increase in demand for products and organization of production.
15	Navoi region	Organization of gold mining	oz / oz	1450 / 8965	1,5	33	22,1	20	Since most of the gold-bearing raw materials in the area belong to NMMC, the budget does not receive revenue. As a result of the implementation of this project, budget revenues and more than 50 new jobs will be created
16	Navoi region	Establishment of livestock complex	tn	432	1,3	16	19,6	83	The area has all the amenities for animal husbandry, and currently 5,573 heads of cattle are bred here. Creation of a complex for 500 heads. The processing of cattle meat and the production of cattle meat products is expanding. 100% domestic market.
17	Navoi region	Organization of production of gold jewelry	kg / kg	60 / 327	2,4	40	13,4	54	Since there is no production of gold jewelry in the area, there is a need to produce jewelry from the area in exchange for residents going to the city of Zarafshan, which is 45 km from the area, to buy jewelry
18	Navoi region	Organization of meat processing	tn	873,6	0,7	26	20	36	The area has all the amenities for animal husbandry, and currently 2,393 tons of live weight of gusht are not processed in the area, for this reason it is necessary to process and organize gusht in the area. 100% domestic market.

19	Navoi region	Development of explosives used in the mining industry	tn	5000	2,8	54	0,8	60	Due to the fact that there are more than 20 gold quarries in the area, explosives are imported from other areas, it is necessary to organize explosive devices in the area. The need for a product
20	Navoi region	Organization of household and rubber waste processing	dona/ tn / tn	432 000/ 1 875/ 1 350	0,9	37	22,2	60	There are 24 settlements in the area, of which 3175 thousand tons of waste are thrown out per year, 50 thousand tons of waste is collected in the district. Currently, given the high demand for waste recycling, as well as the preservation of ecology and the environment, it is advisable to create a value chain for the processing of these wastes.
21	Navoi region	Organization of poultry processing, packaging and production of chicken meat products	tn	144	0,7	32	12,3	49	39,085 head of poultry are bred in the area. Due to the fact that processing, packaging and production of chicken meat products are located in the area, it is necessary to organize all the possibilities for this
22	Navoi region	Breeding cattle fattening project	tn / l	1600/ 100 000	3,0	20	12	13	The area has all the amenities for cattle, and 5,573 head of cattle are currently being bred. Organization of breeding cattle for 200 heads. The processing of cattle meat and the production of products from cattle meat is achieved. 100% domestic market.
23	Navoi region	Production of building materials (reinforced concrete, cinder block, baked brick and gas block for buildings)	pieces	23760	0,7	26	20	48	Due to the rapid growth in the pace of construction, the need for modern building materials is increasing. Relief, including in multi-storey buildings. Raw materials are available in the area. 100% domestic market.
24	Navoi region	Organization of turkey breeding and processing of turkey meat	head / ton	7000 / 50	0,1	10	14,23	33	The district does not grow turkey in a favorable geographical area There are all possibilities, as the demand for turkey meat in the domestic market is 100%
25	Navoi region	Establishment of a private clinic	person	110528	0,6	18	19	48	The population of the district exceeds 10 thousand people. the burden on a private clinic in the district is high, the demand for this type of medical care is growing every day. The absence of a clinic in the area equipped with all modern medical equipment necessary for high-quality medical care for the population
26	Navoi region	Establishment of a breeding complex of the Karakol sheep breed	kg / pcs/ kg	81000/ 1 000/ 10 000	1,0	22	8,5	69	The area has all the amenities for animal husbandry, and currently 346,155 sheep and goats are being bred. Creation of a breeding breed of Karakalpak sheep consisting of 1000 heads. The processing of Karakul mutton and the production of Karakul meat products is achieved. 100% domestic market.
27	Navoi region	Organization of marble extraction and processing	sq.m	500000	1,5	69	11,3	44	Reserves of marble stone in the area: 1800 thousand m3, organization of marble mining and production of products from it, sonoat production and new jobs will be created in the area. Raw materials are available in the area. 100% domestic market. The establishment of widespread use of natural resources is currently in high demand for such a product
28	Navoi region	Production of textile and knitted products	pieces/ ton	475200/ 797	10,2	177	12	60	There is an empty building and sewing machines in the area on the territory of the Tomdibulak office. As a result of the project, more than 50 unemployed residents will be employed. The export of raw materials from the city of Zarafshan will be arranged.

29	Navoi region	Organization of lime production	tn	75000	1,5	35	9,7	53	There is a salt mine in the district and there are all possibilities for the implementation of the project. 100% domestic market limestone for lime production 61,098.9 thousand tons of raw materials reserves there is a high demand for products availability of the domestic market 100%
30	Navoi region	Organization of production activities of thermopanel for facades made of polystyrene	sq.m	300000	1,1	30	5	60	Due to the increased demand for the construction of Boilers in connection with the expansion of sulfur bitumen production in the area, it is necessary to implement the project and create new jobs for the industrial project. there are all the possibilities for this
31	Navoi region	Pasta production	packing	4320000	0,6	29	19	49	When organizing surveying services, the area is considered a favorable geographical area for further compilation of survey mining and graphic documentation on the territory, calculating the volume of extraction and loss of minerals, determining the boundaries of deposits and accurate geological changes according to the rectangular coordinates of the earth's surface of land plots, mining and underground structures , achieving comprehensive work on the normalization of contours
32	Navoi region	Organization of dry fodder production	tn	10137	0,7	24	38	24	Livestock farming is developed in the area and 346,155 heads of sheep and goats, 5,573 heads of cattle, 5,483 heads of horses, 39085 heads of poultry are grown. Omuxta feed production is necessary due to the need for omuxta feed dual market 100%
33	Navoi region	Organization of high-quality cement production	tn	100000	11,4	98	8	57	Providing the domestic market with products by producing high-quality and inexpensive cement from affordable raw materials, given the high demand for products in our country today. Stocks of raw materials for cement production in the area of 740,300 thousand tons
34	Navoi region	Construction of solar panels to provide electricity to Tomdi population and industry	kW	65700000	10,5	10	11	96	Sunny days in fog are on average more than 300 days, in the desert zone the sun's rays fall vertically. Alternative energy supply is necessary taking into account the presence of two industrial zones in the area and the electricity needs of existing industrial enterprises. 100% domestic market.
35	Navoi region	Modern camel breeding complex, production of camel hair products, establishment of camel milk treatment facility	head/ 1/TON	6265/ 7,8млн/ 71,6	2,2	20	15,4	72	Due to the fact that the district saves on animal husbandry 2500 heads of camels are not used, there is a need for camel hair products and processing with camel milk. There are all possibilities for this
36	Navoi region	Establishment of a place for treatment in natural hot water	trip to work	18000	2,3	60	4,3	60	Affordable natural hot water treatment facilities in the area attract residents to the area, creating a favorable geographical area The need for the type of service
37	Navoi region	Establishment of a private school specializing in teaching foreign languages and IT programming languages	person	7108	1,5	25	14,9	72	Youth of grades 1-11 in the district is 1,876 people, which is a high need for teaching foreign languages and IT programming languages
38	Navoi region	Production of tableware and articles from borosilicate and sodium-calcium glass	pieces / comp	2275000/50000	3,1	40	6,2	60	Quartz sand is used in the region for the production of tableware and products made of borosilicate and sodium-calcium glass. The available reserves of raw materials amount to 34183.1 thousand tons. 100% domestic market

39	Navoi region	Production of ceramic tiles	sq.m	420000	4,5	70	3,7	68	Currently, domestic ceramic tiles produced in our country have their place in the market. Therefore, new technologies are being introduced to meet the demand for products by increasing production volumes.
40	Navoi region	Extraction of bentonite for drilling operations	powder tn / granules tn/ rust-rust sq. m	12000/9000/1600000	4,2	57	13,8	36	Bentonite for building mixes is widely used and in great demand, as the reserves of bentonite raw materials in the area amount to 1258.2 thousand tons. there are all possibilities for mining in the domestic market.%
41	Navoi region	Establishment of a solar photoelectric plant	pieces	1000000	30,0	60	22,2	60	Sunny days in fog are on average more than 300 days, in the desert zone the sun's rays fall vertically. Alternative energy supply is necessary, taking into account the presence of two industrial zones in the area and the electricity needs of existing industrial enterprises. 100% domestic market.
42	Navoi region	Organization of production of mineral plates	tn	25000	20,0	150	11,5	108	Currently, government regulations have been adopted on the use of energy-efficient materials at construction sites. Therefore, the need for insulation materials is great. It would be advisable to organize a landfill of household waste in the area as a result of the processing of glass products separated during the waste sorting process. 100% domestic market.
43	Navoi region	Organization of tile production	pair/tn	57100/1260	12,0	50	11,5	72	It is planned to create a youth industrial zone located on the territory of NPF Navruz. Raw materials in the Vobkent district there are 402.0 thousand m3 of loose rocks in their natural form. 100% domestic market
44	Navoi region	Production of phosphorite mineral fertilizers	m3	30000	10,0	50	17,9	72	The total area of the konimex district is 1,595.58 thousand hectares. Of these, 4,729 hectares of irrigated arable land, of which 1,107 hectares have a low bonus score, require additional tillage and fertilizers. At the same time 93.7 ming.ga in order to increase the fertility and productivity of lands not used in agriculture, 45 km from the Muruntau district of Karakatin (aznek and Ayakkuduk deposits), activities will be organized for the processing of granular phosphorous deposits with a total production volume of 42,723.4 thousand tons of phosphorous mineral fertilizers. 100% domestic market.
45	Navoi region	Production of pigments for lacquer paints	daily trips	1000	8,0	85	7,4	109	The extraction of ochre from brown ironstone used in the production of cement at the Sarybotyr site is carried out under license from Kizilkum Original Pigment LLC. Ochre is used in the production of pigment from raw materials (ochre is extracted, ground into powder and chemically processed to produce pigment) 50% of the domestic market 50% of exports."
46	Navoi region	Establishing a charging station for electric cars - Establishment of a shopping complex along the A-379 highway. - Establishment of a common dining area along the A-379 highway. - Organization of hotel service along the A-379	tn	5850	5,2	50	22	48	Konimeh district has 121 km of the a-379 highway, which allows access to other districts and regions, as well as to neighboring republics. The organization is necessary due to the lack and great need for such services on the side of the a-379 highway passing through the district. Hence the 100% domestic market.
