

Investment projects developed based on the results of the analysis of the economic potential of the Jizzakh region

№	Region	Project name	Capacity		Project cost (million dollars)	Jobs	IRR (%)	PP	Note
			measurement	quantity					
127					290,3	4 124,0	16,8		
	Jizzakh region								
1	Jizzakh region	Creation of a livestock cluster (a large cattle farm in the field of meat, production of meat, gelatin and feed products and milk processing)	thousand tons	8,89	6,6	40	16	60	This project was chosen to produce low-cost beef and dairy products and meet the population's demand for these products.
2	Jizzakh region	Organization of production on the basis of food cooperatives (turnip juice production)	thousand tons	3,6	25,0	400	15	84	This project was chosen to expand turnip production in the district, to focus on processing and export.
3	Jizzakh region	Organization of fabric production and dyeing	thousand tons	1,5	9,5	51	13	60	This project was selected for the production of finished products from processed cotton raw materials by the cotton cluster
4	Jizzakh region	Seed processing and production of oil products	thousand tons	11,5	7,1	100	11	72	This project was chosen to process the seed extracted from the processed cotton by the cotton cluster, resulting in cottonseed oil, feed products.
5	Jizzakh region	Processing of fish products (kill, sprat)	thousand tons	5	6,2	100	17	60	Since the Aydar-Armasoy lake system is a nearby area, this project was chosen due to the possibility of processing fish from fishing enterprises.
6	Jizzakh region	Organization of agrologistics service	thousand tons	15	8,5	70	13	72	Given that the district mainly specializes in agriculture, this project was chosen in order to meet the demand of the population for the storage, packaging and logistics services of these products.
7	Jizzakh region	Production of flour products	thousand tons	1,4	4,3	40	10	84	There is sufficient base for the production of flour for the daily consumption of the population from the wheat grown in the district, so this project is not proposed.
8	Jizzakh region	Organization of a poultry cluster	thousand tons	4,5	4,1	40	14	60	This project was chosen to grow low-cost poultry meat and meet the population's demand for this product.

9	Jizzakh region	Service of special equipment (Excavator, Loader, Hova and other large equipment)	billion soums	5,2	4,6	40	8	48	This project was chosen due to the demand for large machinery services in the district
10	Jizzakh region	Processing of vegetable products (tomato paste and tomato juice)	thousand tons	19	3,2	40	12	60	To increase the volume of vegetables grown in the district, create conditions for processing and export
11	Jizzakh region	Cleaning, sorting and packaging line for the production of mash and leguminous products	thousand tons	2	1,1	60	18	60	To increase the volume of mash and leguminous products grown in the district, to create conditions for processing and export
12	Jizzakh region	Organization of mini MTP (mechanization service of agricultural machinery)	billion soums	8	3,2	40	8	48	It was chosen to meet the needs of existing small farms and the population for agricultural machinery.
13	Jizzakh region	Processing of fruit products+N430:N443 (juice and beverage production)	thousand tons	1,8	2,2	80	17	60	It was chosen to use the existing agricultural base to satisfy the needs of the district's population for daily consumption products and to supply the markets of other districts.
14	Jizzakh region	Processing of plastic products (semi-finished product granules)	thousand tons	5,2	1,9	25	13	60	This project was chosen due to the availability of recycling facilities for collected plastic products in the district
15	Jizzakh region	Organization of eco-tourism	billion soums	3,1	1,2	8	10	96	This project was chosen because there is an opportunity to organize eco-tourism around Navroz Kurgon near the lakeside area.
16	Jizzakh region	Organization of open and closed water basin	billion soums	1,9	1,1	15	20	48	This project was chosen based on the demand of residents to be interested in bathing and swimming
17	Jizzakh region	Wool and leather processing (wool rugs and leather semi-finished products)	a thousand pieces	3	1,2	45	11	96	Processing of skins and production of semi-finished products from available livestock at the disposal of farms and residents
18	Jizzakh region	Processing of policy products	thousand tons	2	0,6	15	13	60	Considering that the district mainly specializes in agriculture, this project was chosen in order to process the grown rice products.

19	Jizzakh region	Gazblock production	thousand m3	12	0,3	20	16	36	The demand for building materials in the district is very high, and it is mainly purchased from neighboring districts.
20	Jizzakh region	Hatching chicks in an incubator	a thousand pieces	600	0,3	20	28	60	Delivery of chicks to the population and poultry enterprises for the development of poultry farming in the district
21	Jizzakh region	Production of dry milk	tons	20	0,5	30	12	60	This project was selected for the processing and export of dairy products produced by the population
22	Jizzakh region	Bag production	a thousand pieces	300	0,2	20	14	60	The district is mainly agricultural and is used for storage.
23	Jizzakh region	Production of furniture products	piece	560	0,4	10	33	60	To meet the demand of the population for furniture products
24	Jizzakh region	Establishment of camel breeding (camel milk)	piece	40	0,2	30	23	60	Satisfying the population's demand for Camel milk products
25	Jizzakh region	Production of trotuarnoy bruschatki	thousand m2	8	0,2	15	20	36	This project was chosen due to the demand for construction materials in the district
26	Jizzakh region	Production of polyethylene bags	a thousand pieces	50	0,3	30	12	84	This project was chosen due to the demand for construction materials in the district
27	Jizzakh region	Production of aqua door frames	piece	500	0,1	40	18,7	84	This project was chosen due to the demand for construction materials in the district
28	Jizzakh region	Production of pasta products	tons	300	0,1	30	26	48	The demand for macaroni products in the district is very high, and it is mainly bought from neighboring districts.

29	Jizzakh region	Production of toilet paper	million pieces	1,2	0,3	20	10	72	This project was chosen because of the demand for toilet paper in the district
30	Jizzakh region	Service of making metal products to order	million soums	600	0,1	10	8,5	60	This project was chosen due to the demand for construction materials in the district
31	Jizzakh region	Production of socks and gloves and blankets	a thousand pieces	12	0,2	10	15	60	In the district there are mainly yarn products, the demand of the population is met through processing
32	Jizzakh region	Production of packaging materials	a thousand pieces	40	0,2	15	46	60	This project was chosen taking into account the demand for food packaging equipment for existing and new enterprises in the district.
33	Jizzakh region	Production of advertising products (banner, 3D, etc.)	a thousand pieces	6	0,1	10	14	60	Advertising products are in great demand in the district and are purchased from neighboring districts.
34	Jizzakh region	Production of panels of different appearance from tunic	thousand m2	3	0,2	12	10	60	This project was chosen due to the demand for construction materials in the district
35	Jizzakh region	Production of coal briquettes	million pieces	1,1	0,2	8	10	60	This project was selected considering the natural gas problem in remote MFYs of the district
36	Jizzakh region	Production of disposable Pet containers	a thousand pieces	500	0,5	20	16	60	This project was chosen in order to satisfy the demand for pet containers in the district
37	Jizzakh region	Organization of hostel and hotel services (ecotourism)	billion soums	2,4	0,5	30	19	48	There is an opportunity to promote ecotourism in the district
38	Jizzakh region	Organization of water transport service (tourism)	million soums	250	0,1	15	15	60	This project was chosen in order to organize public services on the banks of the Aydar Arnasoy lake, in the Navroz region.

39	Jizzakh region	Light construction building preparation service (mobile shops and offices)	piece	120	0,2	15	14	60	The demand of residents and enterprises is satisfied by the construction of light construction building preparation service (multiple shops and offices).
40	Jizzakh region	Organization of aggregator cooperation and export of products	thousand tons	1,5	0,9	30	13	60	efficient use of available farm lands and farm lands in the district, cooperative cultivation of agricultural products and distribution to the foreign market
41	Jizzakh region	Establishment and processing of paulownia plantations (matches and toothpicks)	million packs	4,4	0,3	20	17	60	This project was chosen because the district is an agricultural area
42	Jizzakh region	Ostrich care and egg production	a thousand pieces	35	0,1	8	25	87	Delivery of ostrich eggs to the population
43	Jizzakh region	Production of kvass drink	thousand tons	4,8	0,1	8	14	24	This project was chosen based on the agrarian territory of the district and the demand for a drink that quenches the thirst of the population
44	Jizzakh region	Plasterboard production	a thousand pieces	11,8	0,1	10	25	60	This project was chosen due to the demand for construction materials in the district
45	Jizzakh region	Production and packaging of dried fruits for export	million packs	1,2	0,2	10	14	60	This project was selected considering the drying and packaging of fruit products grown in the district and neighboring districts and directed to the domestic and foreign markets.
46	Jizzakh region	Production of bread and bakery products	a thousand pieces	1,2	0,2	20	20	48	This project was chosen based on the demand for bread and bakery products in the district
47	Jizzakh region	Milk processing (cream, ice cream, yogurt, etc.)	thousand tons	1,8	0,3	10	35	60	Organization of small milk processing in order to meet the demand for milk products in the district
48	Jizzakh region	Production of apple pie	thousand tons	3,5	16,5	80	15	60	Considering that the district mainly specializes in apple cultivation, it was intended to establish a modern apple processing enterprise

49	Jizzakh region	Organization of a modern laboratory ² (growing seedlings and seeds)	thousand tons	4	5,5	40	10	84	It was proposed to meet the district's need for quality seeds and seedlings and to organize its control
50	Jizzakh region	Establishing a sanatorium	place	400	10,4	5	7,35	102	It was proposed taking into account the fact that the district is located in an ecologically clean area
51	Jizzakh region	Establishment of a place of rest and treatment		450	6,8	30	7,83	91	It is recommended to improve the quality of tourism and use this potential effectively
52	Jizzakh region	Organization of an intensive garden in the cooperative method (250 ha of cherries and 250 ha of apples)	hectares	500	6,1	55	25	72	Providing employment to the unemployed layer of the district and increasing the export potential by creating an intensive garden
53	Jizzakh region	Beer and wine production	thousand tons	20	5,9	60	17	36	The availability of the raw material base and the opportunities for its development were taken into account
54	Jizzakh region	Organization of poultry cluster (production of meat, semi-finished products, sausages and fodder).	million heads	1,2	5,3	40	10	36	This project was chosen in order to grow low-cost poultry meat and satisfy the population's demand for this product.
55	Jizzakh region	Production of knitted products (in 3 MFY regions)	a thousand pieces	13,5	2,0	280	13,35	60	Satisfying the population's need for knitted products and providing employment to women in the district
56	Jizzakh region	Organization of mini MTP (mechanization service of agricultural machinery)	billion soums	3	1,4	14	8	48	It was chosen to satisfy the need for agricultural machinery on existing farms and farms.
57	Jizzakh region	Production of mineral water	a thousand pieces	120	1,6	40	16	60	It was intended to satisfy the desire of the population for this type of product
58	Jizzakh region	Development of drip irrigation technologies	thousand m2	100	2,6	12	31	36	To contribute to the development of modern drip irrigation in agriculture and to satisfy the population's need for this product

59	Jizzakh region	Drying, processing and seasoning of vegetables and herbs	thousand tons	5	3,3	15	15	72	To increase the volume of vegetable products grown in the district, to create conditions for processing and export
60	Jizzakh region	Production of plastic products	a thousand pieces	25	1,6	15	19	36	It was intended to satisfy the population's demand for this type of product
61	Jizzakh region	Organization of lime production	thousand tons	15	1,4	15	8	36	Production of quality construction products
62	Jizzakh region	Kora marble production	thousand m2	12	4,3	24	8	36	Production of quality construction products
63	Jizzakh region	Production of sausages	tons	100	2,1	15	22	60	Establishment of a new modern enterprise processing meat products in the district
64	Jizzakh region	Establishment of a refrigerated warehouse	thousand tons	5	3,6	60	9	84	Given that the district mainly specializes in agriculture, this project was chosen in order to satisfy the demand of the population for the service of storage and packaging of these products.
65	Jizzakh region	Production of medical plaster	thousand liters	120	0,8	10	17	60	Supplying quality products to the district health care sector
66	Jizzakh region	Organization of envelope bag and paper production	a thousand pieces	180	0,3	15	15,6	60	These types of products were chosen to satisfy the needs of the population
67	Jizzakh region	Organization of livestock and poultry feed production	thousand tons	10	0,6	10	13	60	This project was proposed for the purpose of expanding the feed base for the newly formed projects of the district and for the poultry and livestock kept in the houses of the residents.
68	Jizzakh region	Honey processing	tons	30	0,5	10	10,8	74	There are bee farms in the district, and a new product is produced through processing

69	Jizzakh region	Production of different types of motocultivators	thousand m2	800	0,5	12	13	60	The demand for construction materials in the district is very high, and they are mainly purchased from neighboring districts.
70	Jizzakh region	Potato processing	tons	300	0,4	12	15	72	There are potato farms in the district, which are processed into chips.
71	Jizzakh region	Production of Teplitsa films	thousand m2	30	0,9	12	15	60	Production of high-quality products to support the activity of teplitsa, which is considered profitable among the population
72	Jizzakh region	Waste processing	tons	150	0,8	15	17	60	There are landfills in the district that can be recycled.
73	Jizzakh region	Organization of intensive fishing	tons	500	1,0	10	16	60	Fish products are in high demand in the district and are mainly imported from other districts.
74	Jizzakh region	Production of concrete products (columns, trays and others)	million pieces	1,5	0,5	15	7,8	60	The demand for construction materials in the district is very high, and they are mainly purchased from neighboring districts.
75	Jizzakh region	Production of dry and wet wipes	million pieces	5	0,5	12	19,07	60	Dry and wet wipes are in high demand in the district and are imported from other districts.
76	Jizzakh region	Production of dry building materials	thousand tons	3	0,4	8	15	60	The demand for construction materials in the district is very high, and they are mainly purchased from neighboring districts.
77	Jizzakh region	Production of metal products	thousand m2	1	0,2	10	15	60	The district is mainly specialized in horticulture, and metal fences are in high demand.
78	Jizzakh region	Establishment of a recreation area (rest house)	place	50	0,3	12	14	48	There is an opportunity to develop ecotourism in the district.

79	Jizzakh region	Production of furniture products	piece	700	0,3	10	23	48	The demand for furniture products in the district is very high, and it is mainly purchased from the Kushni districts.
80	Jizzakh region	Production of polyethylene bags	tons		0,7	10	16,2	72	Polythene bags are in great demand in the district and are obtained mainly through recycling of secondary products.
81	Jizzakh region	Production of tomato paste	tons	350	0,9	10	12,3	84	Availability of stock of agricultural tomato products in the district
82	Jizzakh region	Establishment of a hotel	place	35	0,4	12	12	48	As the district specializes in ecotourism, there is a demand for hotels.
83	Jizzakh region	Production of corrugated hose protecting cables	a thousand meters	26	0,3	8	21	60	It was chosen to provide the construction industry with quality and quality products and to create additional new jobs for the population.
84	Jizzakh region	Production of disposable Pet containers	million pieces	10	0,2	15	12	60	Development of the service sector in the district.
85	Jizzakh region	Establishment of a consulting service center	million soums	350	0,1	10	31	60	There is no consulting service in the district and there is a high demand from the population.
86	Jizzakh region	Production of copper cable	thousand tons	1	0,6	8	9	39	The demand for construction materials in the district is very high, and they are mainly purchased from the neighboring districts.
87	Jizzakh region	Production of vegetable oil	thousand tons	10	0,8	15	16,5	60	It was chosen to meet the needs of the district population for daily consumption products and to use the existing rural economic base to bring them to the markets of other districts.
88	Jizzakh region	Organization of poultry cluster (production of meat, semi-finished products, sausages and fodder).	million heads	1,2	10,5	226	12	60	This project was chosen in order to grow low-cost poultry meat and satisfy the population's demand for this product.

89	Jizzakh region	Establishment of livestock complex 3750 tn. Milk production	thousand tons	20	6,5	45	27,7	60	Improving the quality of the district by establishing a modern farm of a new type
90	Jizzakh region	Hot (by hydroponics)☒ (10 GA Tomatoes (cherry and other varieties), 10 GA Cucumbers, 10 GA strawberries, 5 GA flowers	thousand tons	19,5	19,5	60	9,53	84	This project was chosen in order to meet the demand for agricultural products of the population of modern Teplitza region 12 months a year.
91	Jizzakh region	Establishment of a solar power station	megawatt	16	9,6	60	11	98	This project has been proposed to cover the electricity consumption in view of the increasing demand for electricity today.
92	Jizzakh region	Production of porcelain products	million pieces	5	11,9	60	21,47	72	These types of products were chosen to satisfy the needs of the population and to make effective use of the available raw material base.
93	Jizzakh region	Organization of processing of dairy products	thousand tons	30	3,8	60	20,6	60	It was intended to process the milk produced in farms and households and satisfy the population's demand for dairy products.
94	Jizzakh region	Production of vegetable oil	thousand tons	10	5,0	60	19,33	60	It was chosen to meet the needs of the district population for daily consumption products and to use the existing rural economic base to bring them to the markets of other districts.
95	Jizzakh region	Concrete products (cinder block putotka stolba)	a thousand pieces	20	5,5	27	26	60	It was chosen to provide the construction industry with quality and quality products and to create additional new jobs for the population.
96	Jizzakh region	Production of mineral water	a thousand pieces	20	2,4	40	12	60	Production of a quality product from the existing healing water basin in the district
97	Jizzakh region	Establishment of a walnut plantation	thousand tons	5	1,2	20	33	60	Establishing a plantation in the form of a product that is in demand for export
98	Jizzakh region	Flour production	thousand tons	20	4,5	114	22	60	There is enough base to produce flour for the daily consumption of the population from the wheat grown in the district, so this project is proposed.

99	Jizzakh region	Production of leather shoes by processing leather	million pieces	7,8	3,0	51	13	60	It was chosen to meet the needs of the district population for daily consumption products and to use the existing rural economic base to bring them to the markets of other districts.
100	Jizzakh region	Rabbit breeding	tons	500	1,1	30	22	60	Rabbit meat production is characterized by low cost and demand. How to process rabbit meat and skin
101	Jizzakh region	Beekeeping	thousand tons	5	0,0	8	24	36	Packaging honey in a modern style for export. In order to satisfy the desire of the population for this special type of honey.
102	Jizzakh region	Burschatka and cinder block production	a thousand pieces	10	1,6	15	31	60	Modern construction products deliver quality products for fast and efficient construction services
103	Jizzakh region	Production of envelopes	a thousand pieces	500	0,7	20	18	60	Modern coding is aimed at mass production
104	Jizzakh region	Production of ready knitted products	a thousand pieces	100	0,3	20	10	60	Employment of district youth and women, as well as production of affordable textile products
105	Jizzakh region	Development of goat breeding and processing of milk	tons	5	0,3	10	12	60	Development of goat farming in the district
106	Jizzakh region	Organization of a livestock cluster (large cattle farm in the field of meat, production of meat, gelatin and fodder products and warehouse)	thousand tons	2	0,7	20	17	48	Production of quality products to meet the demand of the population for August products
107	Jizzakh region	Plastic packaging products	a thousand pieces	300	0,5	15	16	60	Production of plastic recycling products
108	Jizzakh region	Establishment of eco-tourism center	thousand US dollars	10	0,4	12	20	60	Development of eco-tourism in the region

109	Jizzakh region	Production of metal rods, nails and self-tapping screws	tons	10	0,2	20	16	60	Delivery of construction goods for the domestic market
110	Jizzakh region	Production of heating furnaces working with alternative energy	thousand m2	8	0,9	20	11	60	Employment of district youth, production of low-cost bruschatka
111	Jizzakh region	Organization of production of solar and electric water heaters	million pieces	1	0,7	20	13	60	Production of agricultural products using bush lands
112	Jizzakh region	Production of wet wipes, dry wipes	a thousand pieces	20	0,4	20	21,59	60	In order to satisfy the desire of the population for this type of product
113	Jizzakh region	Bread and confectionery products	million pieces	1	0,5	15	20	48	Providing the population with quality bread products
114	Jizzakh region	Pasta products	tons	500	0,3	8	33	48	Employment of young people and production of quality products
115	Jizzakh region	Production of disposable packaging containers	piece	350	0,5	12	17	60	Production of unique furniture products
116	Jizzakh region	Production of socks and hats	a thousand pieces	20	0,2	15	15	60	Production of cheap and quality goods
117	Jizzakh region	Viticulture and processing of grapes	tons	1	0,6	15	20	60	Cultivation of delicious fruit and delivery to the population
118	Jizzakh region	Production of household soap, perfumed soap, laundry detergents, and gels	a thousand pieces	15	0,5	20	34	29	These types of products were chosen to satisfy the needs of the population and to make effective use of the available raw material base.

119	Jizzakh region	Development of creativity	piece	50	0,1	5	19	60	Developing camel milk treatment to improve my health
120	Jizzakh region	Production of aluminum and plastic door frames	m2	500	0,3	8	21,6	84	Develop and benefit from profiles for the benefit of the district
121	Jizzakh region	Cultivation and packaging	tons	1	0,8	12	14	60	Growing products for export
122	Jizzakh region	Pena block and Gaza block production	thousand m3	10	0,3	15	30	36	Development of new types of construction products
123	Jizzakh region	Cultivation of medicinal plants	hectares	50	1,0	70	14	84	Cultivation and packaging of medicinal plants for medical use
124	Jizzakh region	Organization of intensive horticulture, fruit processing	tons	100	0,8	30	12	72	Growing fruit for processing and exporting it
125	Jizzakh region	Small cattle	tons	70	0,7	25	17	48	Providing quality and affordable music to the population
126	Jizzakh region	Fabric weaving and dyeing	tons	30	1,0	15	16	60	Production of products for export
127	Jizzakh region	Production of polished stone	tons	500	0,4	10	8	60	Production of quality construction materials
