

Investment projects developed based on the results of the analysis of the economic potential of the Surkhandarya region

№	Region	Project name	Capacity		Project cost (million dollars)	Jobs	IRR (%)	PP	Note
			measurement	quantity					
320					1 189,4	12 350,0	23,4		
	Surkhandarya region								
1	Surkhandarya region	Creation of factories for semi-finished meat products, sausage and feed production with the aim of creating a poultry cluster.	a thousand ton	10,2	10,5	85	16	48	Due to the anomalous cold weather, the need for alternative energy has increased according to the current demand. Therefore, this project is not proposed
2	Surkhandarya region	Construction of a large solar power plant	mIn KWT	80,6	15,0	50	8	180	This project was chosen to grow low-cost poultry meat and satisfy the population's demand for this product.
3	Surkhandarya region	Expanded clay construction tools, brick and tile production	million pieces	8,1	10,0	60	16	48	This project is proposed to meet the need for building materials due to the increased demand for heating buildings due to the abnormal cold and the availability of raw material base.
4	Surkhandarya region	Construction of a new modern (hydroponics) greenhouse and increasing the efficiency of product exports	a thousand ton	7,1	19,5	60	16	84	This project was chosen in order to meet the demand of the population for agricultural household products 12 months a year in the modern Teplitsa area.
5	Surkhandarya region	Creation of an agrological center for growing, processing, drying and packaging of vegetable crops, a center for receiving, storing, packaging and exporting agricultural products.	ha.	30	12,0	60	7	84	Given that the district mainly specializes in agriculture, this project was chosen in order to meet the demand of the population for the storage, packaging and logistics services of these products.
6	Surkhandarya region	Creation of a livestock complex (milk processing, packaging, production of kefir, cream, cottage cheese, yogurt and feta cheese)	million pieces/kg	44.8 million units 2500 thousand tons	12,0	60	13	48	It was aimed to process the milk produced in farms and households and satisfy the population's demand for dairy products.
7	Surkhandarya region	Dry food production	a thousand ton	10	3,2	70	15	60	In order to expand the feed base for poultry and livestock kept in district farms and in the homes of residents
8	Surkhandarya region	Production of gas stoves, heating stoves	a thousand pieces	13	2,5	60	12	48	Satisfy the needs of the population for these consumer goods
9	Surkhandarya region	Bentanite processing and chemical fertilizer production	a thousand ton sq.m	13.5 thousand tons 1072 thousand sq.m	4,0	60	15	60	It was chosen to provide the construction industry with a demanding and quality product and to create additional new jobs for the population, so there is a raw material base.

10	Surkhandarya region	Purchase of equipment for shoe production and development of production activities	a thousand pairs	312	2,0	60	10	48	Production of high-quality and timely products
11	Surkhandarya region	Vegetable oil production	a thousand ton	6300	4,5	60	14	60	It was chosen to meet the needs of the district's population for daily consumption products and to deliver to the markets of other districts as well as to use the existing agricultural base.
12	Surkhandarya region	Founding of a garment factory.	a thousand pieces/set	95.4 thousand donnas 98.7 thousand Comp/kt	3,5	60	6	72	Effective use of the raw material base and providing the population with new jobs
13	Surkhandarya region	Stone paper production	a thousand ton	8	3,2	34	11	72	The district has raw materials.
14	Surkhandarya region	Carpet growing and processing, carpet juice production.	ton	72	3,5	60	7	48	The climate of the district is suitable and there are vacant land areas.
15	Surkhandarya region	Processing of celite (glass)	a thousand ton	15	4,2	15	10	48	There is a large reserve in the district.
16	Surkhandarya region	Production of heating stoves using alternative energy	a thousand pieces	10	0,9	15	11	60	This product was chosen to meet the needs of the population
17	Surkhandarya region	Production of children's dining chairs, bassinets, children's swings.	a thousand ton	10	0,8	12	10	60	It was chosen to meet the needs of the residents of the district for daily consumer products and to bring them to the markets of other districts.
18	Surkhandarya region	Production of plastic products and plastic packaging	a thousand pieces	12200	0,7	10	15	48	It has been chosen to meet the needs of the population in this range of products and to supply quality products to the ever-increasing number of retail outlets.
19	Surkhandarya region	Production of feeding dishes, pacifiers and milk bottles for children.	set/piece	35 thousand sets, 100 thousand pieces	0,4	24	10	108	Currently, the district has the possibility to process secondary waste products.
20	Surkhandarya region	Production of various types of toys, soft toys, dolls.	a thousand pieces	210	0,9	14	19	48	It was chosen because there is a constant market for toys.
21	Surkhandarya region	Production of furniture products	set/piece	645 sets, 3465 pieces	0,7	10	17	36	It was chosen to meet the demand of the population for modern and quality furniture products

22	Surkhandarya region	Production of thermal insulation material from basalt fiber	ton	300	0,8	25	18	60	It was chosen to provide the construction industry with demanding and quality products and to create additional new jobs for the population.
23	Surkhandarya region	Production line for filters and water purification systems	a thousand pieces	10	0,7	8	15	60	Nowadays, the use of wastewater by the population is increasing.
24	Surkhandarya region	Organization of production of aluminum radiators	a thousand pieces	5	0,4	12	15	60	Applicant in the field of construction. It is organized by processing secondary raw materials.
25	Surkhandarya region	Production of films "Greenhouse"	thousand sq.m	100	0,8	8	11	48	Production of quality products to support the activity of teplitsa, which is considered profitable among the population
26	Surkhandarya region	Production of EPS panels	thousand sq.m	29	0,3	25	15	60	Modern construction products deliver quality products for fast and efficient construction services
27	Surkhandarya region	Production of aerosol and perfume products	a thousand pieces	100	0,5	20	12	60	Production of quality products using the existing base of raw materials effectively
28	Surkhandarya region	Production of leather belts.	a thousand pieces	90	0,4	10	9	48	Satisfy the needs of the population of the district and neighboring districts for this type of product
29	Surkhandarya region	Drying, sorting and packaging of leguminous products	ton	608,6	0,3	12	33	36	It was chosen in order to meet the needs of the population for daily consumption products
30	Surkhandarya region	Production of furniture and equipment for orphanages	set/piece	3000 sets, 7000 pieces	0,8	14	10	96	Satisfy the needs of the population of the district and neighboring districts for this type of product
31	Surkhandarya region	Production of kitchen utensils	a thousand pieces	250	0,7	15	12	60	Effective use of the existing raw material base
32	Surkhandarya region	Manufacturing of electronic products	a thousand pieces	400	0,9	8	9	60	It is obtained by processing secondary plastic products.
33	Surkhandarya region	Processing of metal products	a thousand pieces	18,4	0,1	30	20	36	Modern construction products deliver quality products for fast and efficient construction services

34	Surkhandarya region	Production of modern blankets, duvets, pillows	a thousand pieces	40	0,3	15	9	60	It was chosen to meet the needs of the district population for quality low-quality food products
35	Surkhandarya region	Production of carbonated and still waters	a thousand pieces	1465	0,5	10	11	48	It was chosen to meet the needs of the population of the district for quality food products
36	Surkhandarya region	Production of corrugated hoses, protective cables	a thousand meter	4800	0,6	10	19	48	It was chosen to provide the construction industry with high-quality products and create additional new jobs for the population.
37	Surkhandarya region	Production of stationery	a thousand pieces	500	0,4	30	10	60	It was aimed to satisfy the population's demand for stationery products and to produce quality products
38	Surkhandarya region	Production of pipes and fittings	a thousand pieces/ thousand meter	1540 thousand pieces, 1200 thousand meters	0,8	15	14	48	Satisfy the needs of the population of the district and neighboring districts for this type of product
39	Surkhandarya region	Creation of a medical diagnostic center	trip	73164	1,0	20	12	36	Providing quality and timely service
40	Surkhandarya region	Production of bags for women, children, men.	piece	55000	0,8	20	22	36	It was chosen for the production of high-quality products needed by the population and to satisfy the needs of the district population for this product
41	Surkhandarya region	Production of drugs against cancer	a thousand pieces	10	5,0	20	12	60	Production of drugs used in the treatment of various types of oncological diseases, the number of which is increasing now
42	Surkhandarya region	Creation of a photovoltaic power plant	mln KWT/hour	34,6	11,4	30	9	144	The use of solar energy is economically convenient according to the current requirements. Therefore, this project is not proposed
43	Surkhandarya region	Creating a greenhouse in a modern way	a thousand pieces	5,5	19,6	60	11	120	There is an opportunity to organize greenhouses in a modern way in the district.
44	Surkhandarya region	Organization of production of infusion solutions (glucose, sodium chloride).	million bottles	44,9	5,2	14	14,3	60	Today, infusion solutions are widely used in the medical field and are currently in demand in the region.
45	Surkhandarya region	Organization of cement production	a thousand pieces	720	41,6	76	12	60	The district has a reserve of raw materials.

46	Surkhandarya region	Organization of production of reinforced concrete products	thousand m3/ thousand pieces	12.5 thousand m3/ 18.7 thousand units	1,8	24	14	60	The district has a reserve of raw materials.
47	Surkhandarya region	Creation of a modern medical clinic and laboratory.	thousand trips	259	2,1	20	12	60	Currently, there is a very high demand in the district for the establishment of a medical center specializing in the treatment of infertility.
48	Surkhandarya region	Organization of starch production through rice processing	a thousand pieces	8,6	3,0	34	24	60	The area mainly produces rice products and has a raw material base.
49	Surkhandarya region	Organization of production of packaged soft drinks (carbonated and non-carbonated).	million pieces	2,8	2,3	25	10	60	There is healing spring water in the district.
50	Surkhandarya region	Production of food for children	million pieces	3,9	1,4	15	18	60	In the district, a large amount of rice is grown beyond the needs of the population, but the processing is not sufficiently developed. This project aims to increase the income of the population by processing surplus crops.
51	Surkhandarya region	Organization of production of various medicinal liquids (Minavazin, alcohol, iodine, brilliant green, antiseptic).	million syrup, capsules, tablets	45,8	5,3	200	14,7	60	Currently, the number of modern medical centers is increasing, and the demand for various medical liquids (Menovazin, alcohol, iodine, zelyonka, antiseptic) is increasing day by day.
52	Surkhandarya region	Production of night lights, charging equipment based on solar panels.	thousand square meters	18	3,8	32	9	156	Currently, solar energy is widely used
53	Surkhandarya region	Making paper from reed	million sq. m	2,4	2,7	20	40	60	There is a possibility of planting 80 thousand hectares of land in the district
54	Surkhandarya region	Creation of a livestock complex	thousand liters/kg	100 thousand liters, 1800 kg	3,0	20	12	120	The area is suitable for cattle breeding and has natural fodder reserves.
55	Surkhandarya region	Organization of production of medical furniture and shelving	thousand sets	49,9	4,2	45	9	60	Nowadays, the number of modern medical centers is increasing and the demand for medical furniture and racks used in medicine is increasing day by day.
56	Surkhandarya region	Organization of production of disposable plastic containers	a thousand pieces	1000	1,0	25	11	60	There is a secondary raw material base in the district and a cheap and quality product is obtained through processing
57	Surkhandarya region	Creation of a modern shopping complex	thousand dollars	120	1,0	10	17	85	There is currently no modern shopping complex in the district and there is a demand.

58	Surkhandarya region	Organization of production of medical masks and reusable respirators.	thousand square meters	50	0,8	15	12	60	Nowadays, the number of modern medical centers is increasing and the demand for medical masks and reusable respirators and gloves is increasing day by day.
59	Surkhandarya region	Organization of production of polyethylene pipes	thousand pieces, thousand m/pogony	374,8/78	0,6	10	18	36	The district specializes in agriculture, which consists in the rational use of water resources in water areas
60	Surkhandarya region	Production of plastic containers used in medicine	a thousand pieces	500	0,5	15	16	60	Currently, the number of modern medical centers is increasing and the demand for plastic containers used in medicine is increasing day by day.
61	Surkhandarya region	Organization of production of thermal panels for external walls.	thousand square meters	50	0,8	25	12	60	Modern construction products for fast and efficient construction services, delivery of quality products and efficient use of existing raw material base
62	Surkhandarya region	Production of adhesive tape	a thousand pieces	500	0,5	20	11	60	There is a secondary stockpile of raw materials.
63	Surkhandarya region	Organization of production of formaldehyde glue for chipboards.	thousand kg	100	0,5	10	11	60	Currently, there are two chipboard production plants in the district, formalin glue needed for chipboard is brought from other districts.
64	Surkhandarya region	Organization of production of dry building mixtures for construction products (Rodban putty).	a thousand ton	5000	1,0	20	18	60	Delivery of quality products and effective use of existing raw material base for fast and efficient construction services of modern construction products
65	Surkhandarya region	Organization of production of air filters for cars	a thousand pieces	100	0,4	10	19	60	Nowadays, the number of cars is increasing day by day, and the demand for air filters for cars is very high.
66	Surkhandarya region	Organization of antifreeze production	thousand liters	150	0,5	10	18	60	Nowadays, the number of cars is increasing day by day, and the demand for antifreeze products is very high.
67	Surkhandarya region	Production of electric scooters and electric scooters	a thousand pieces	1,5	1,0	15	13	60	As gasoline products are expensive, electric charging is much cheaper.
68	Surkhandarya region	Production of plastic pellets by recycling waste	thousand kg	400	0,9	25	11	60	The district currently has a large stockpile of waste that is not recycled
69	Surkhandarya region	Organization of production of tiles of different sizes.	thousand square meters	150	0,6	15	13	60	The district has a large amount of stone and sand products.

70	Surkhandarya region	Hotel project	million som	2200	1,0	20	19	79	Currently, there are no hotels in the district to provide hotel services.
71	Surkhandarya region	Organization of production of medical bandages (sterilized and non-sterilized bandages).	million pieces	1,5	0,7	20	10	60	Currently, the number of modern medical centers is increasing and the demand for medical bandages (sterilized and non-sterilized bandages) is increasing day by day.
72	Surkhandarya region	Organization of intensive fishing in an innovative way	thousand kg	400	0,8	20	14	60	Today, the demand for fish products is increasing day by day, and there is an opportunity to grow fish in the district.
73	Surkhandarya region	Organization of a charging station for electric vehicles based on solar panels	million som	714	0,2	5	10	60	Currently, electric cars are becoming popular, and the main problem is that they are expensive to charge.
74	Surkhandarya region	Organization of production of motor cultivators of various types.	a thousand pieces	1	0,5	10	18	60	The region is mainly specialized in agriculture, and today the demand for agricultural machinery has increased.
75	Surkhandarya region	Organization of production of construction electrical equipment (drills, mixers, saws).	a thousand pieces	100	0,5	12	11	60	Currently, the number of constructions in the Republic has increased, and the demand for construction electrical equipment has increased.
76	Surkhandarya region	Organization of production of wheels, rims and accessories for cars	a thousand pieces	20	0,7	15	19	60	This product was chosen to meet the needs of the population
77	Surkhandarya region	Organization of production of medical equipment	a thousand pieces	10	0,7	25	18	60	Nowadays, the number of modern medical centers is increasing and the demand for medical equipment is increasing day by day
78	Surkhandarya region	Organization of production of protective equipment and safety helmets	a thousand pieces	500	0,5	25	16	60	Currently, the number of constructions in the Republic has increased, the demand for protective equipment and protective helmets has increased.
79	Surkhandarya region	Organization of production of energy-saving modern light bulbs.	million pieces	1	0,7	15	12	60	Nowadays, energy-efficient modern light bulbs are popular, with a raw material base and cheap labor.
80	Surkhandarya region	Organization of production of solar and electric water heaters.	a thousand pieces	5	0,7	10	18	60	At present, water heaters working with copper and electricity are becoming popular, the main reason for this is their low price.
81	Surkhandarya region	Production of ceramic products (sink, toilet).	a thousand pieces	118,5	15,4	50	11	60	Effective use of the available raw material base in the district and meeting the district's demand for this type of product

82	Surkhandarya region	Organization of camping (motel, car service and car wash).		person/day 79,200 72,000 pieces car/day 7 200	6,2	25	12	60	Effective use of the available raw material base in the district and meeting the district's need for this type of product
83	Surkhandarya region	Organization of production of a poultry farming cluster (meat, semi-finished products, sausages).	million pieces, thousand kg	9 million pieces, 400 thousand kg	11,4	30	12	60	This project was chosen in order to grow poultry meat, which is considered cheap in terms of price, and to satisfy the population's demand for this product.
84	Surkhandarya region	Creation of a modern sanatorium	a thousand pieces	218,2	5,2	42	12	60	Establishment of a new modern enterprise with efficient use of the raw material base
85	Surkhandarya region	Production of porcelain products	million pieces	5	11,9	60	21,4	60	It was chosen to satisfy the population's demand for these types of products and to make effective use of the available raw material base.
86	Surkhandarya region	Production of sandwich panels	sq.m	300000	13,0	60	11	69	It was chosen to satisfy the population's demand for these types of products and to make effective use of the available raw material base.
87	Surkhandarya region	Production of construction products, dry construction mixtures (rodmin, putty).	ton	2496	3,2	60	13,4	60	It was chosen to meet the needs of the population for these types of products and to make effective use of the available raw material base.
88	Surkhandarya region	Production of carbonic anhydrite from lime	a thousand ton	20,9	5,0	50	13	60	Providing the construction industry and the food industry with quality products and creating additional jobs for the population
89	Surkhandarya region	Production of metal pipes and profiles	ton	1560	4,1	60	15,2	60	Taking into account the fact that the district has industrial competence, delivery of quality products for construction and efficient use of available raw materials.
90	Surkhandarya region	Creation of a modern textile factory.	a thousand ton	2	6,0	60	15,4	60	The establishment of a spinning complex and a fabric extraction and dyeing complex will create a basis for the creation of a ready-made textile line and create a chain.
91	Surkhandarya region	Organization of processing of agricultural products (tomato juice, tomato, ketchup, canning, drying, jam)	a thousand ton	1	3,2	30	11	60	It was chosen to meet the needs of the district population for daily consumption products and to reach the markets of other districts and to use the existing agricultural base.
92	Surkhandarya region	Drying, processing of vegetables and herbs, production of spices and rolls.	million kg/day	5,94	2,3	15	15	84	To increase the volume of vegetable products grown in the district, to create conditions for processing and export
93	Surkhandarya region	Creation of a livestock complex (meat processing, production of sausages, sausages and snacks).	a thousand ton	4,4	3,2	40	17	60	It was chosen to meet the needs of the district's population for daily consumption products, and also to deliver to the markets of other districts, and to use the existing agricultural base.

94	Surkhandarya region	Processing and export of salted products, salt production	ming ton/piece	4.9 thousand tons/1.9 thousand units	3,5	40	22	60	Production of quality products using existing raw material base
95	Surkhandarya region	Production of industrial heating and cooling systems.	a thousand pieces	3,12	4,2	50	13	60	Production of quality products using the existing base of raw materials, increasing the export potential of the district
96	Surkhandarya region	Envelope and paper production	a thousand ton	180	1,5	20	15,8	60	The demand from manufacturing industries is very high
97	Surkhandarya region	Production of industrial filters	a thousand ton	60	0,9	15	26,2	36	The demand from manufacturing industries is very high
98	Surkhandarya region	Tile production	a thousand ton	60	0,7	15	27,2	36	Effective use of the available raw material base in the district and meeting the district's demand for this type of product
99	Surkhandarya region	Production of plastic packaging products	a thousand pieces	250	0,5	5	15,1	36	It was chosen to meet consumer demand for these product types
100	Surkhandarya region	Production of construction equipment (drills, drills, drill bits, whetstones, electrodes).	a thousand pieces	80	1,0	10	13,9	36	Modern construction tools deliver quality products for fast and efficient construction services
101	Surkhandarya region	Production of ceiling panels	thousand square meters	40	0,9	8	15,2	36	It was chosen to meet consumer demand for these types of products
102	Surkhandarya region	Production of construction ladders (scaffolding, ladders, lighting poles, trolleys, mixers).	a thousand pieces	30	0,9	12	12,2	36	It consists in the production of tools needed in the construction industry
103	Surkhandarya region	Production of artificial marble	thousand square meters	200	0,9	9	26,6	36	It is produced using the opportunity in the district
104	Surkhandarya region	Production of accessories for sanitary ware	a thousand pieces	50	0,8	10	12,9	36	It was chosen to meet consumer demand for these types of products and create additional jobs.
105	Surkhandarya region	Production of biological products for wastewater treatment	thousand kg	20	1,0	12	16,6	60	In the region, the population mainly uses wastewater

106	Surkhandarya region	Production of synthetic fabric	thousand square meters	200	0,9	15	18,14	60	Satisfy the demand of the population of the district and neighboring districts for this type of product
107	Surkhandarya region	Production of facade mesh	thousand square meters	200	0,6	10	19	36	Production of quality products using the existing base of raw materials effectively
108	Surkhandarya region	Production of chandeliers and lighting fixtures	a thousand pieces	15	0,4	8	31,4	36	Satisfy the demand of the district population and neighboring districts for this type of product
109	Surkhandarya region	Production of antifreeze and oil filters for cars.	a thousand ton	1,8	0,6	8	14,6	60	Delivery of products for the service of motor vehicles
110	Surkhandarya region	Production of chemical fertilizers	a thousand pieces	5	1,0	10	12,8	36	Effective use of the existing raw material base in the district and meeting the district's demand for this type of product
111	Surkhandarya region	Production of chrome-plated PVC tapes	ton	250	0,5	7	14,4	36	Providing the construction industry with quality products and creating additional jobs for the population
112	Surkhandarya region	Production of household and decorative ceramic products.	a thousand pieces	100	0,7	14	16	36	Convincing the population of the district and the need for daily consumption products
113	Surkhandarya region	Creation of a modern turning shop and creation of a personnel training center.	million som	178,5	0,3	20	16,6	36	Development of the service sector and establishment of a modern workshop and training center for the population
114	Surkhandarya region	Foam production	thousand square meters	13	0,4	6	19,8	36	Providing the construction industry with quality products and creating additional jobs for the population
115	Surkhandarya region	Production of medical plaster	a thousand ton	1,2	0,5	8	16,4	36	Delivery of quality products to the health care sector of the district
116	Surkhandarya region	Production of calcium soda	ton	450	0,7	10	19,1	36	Production of quality products using the existing base of raw materials effectively
117	Surkhandarya region	Production of fire safety equipment	a thousand pieces	20	0,2	6	30,4	36	It was chosen to satisfy the public's desire for these types of products

118	Surkhandarya region	Production of video surveillance and security equipment, turnstiles	a thousand pieces	24	0,9	12	18,7	36	The demand for security devices for businesses and residents is increasing.
119	Surkhandarya region	Production of adhesives and sealants	ton	130	0,7	12	14,8	60	Providing the construction industry with quality products and creating additional jobs for the population
120	Surkhandarya region	Production of roofing materials	thousand square meters	20	0,4	9	15,3	36	Providing the construction industry with quality products and creating additional jobs for the population
121	Surkhandarya region	Production of semi-finished products by processing and dyeing yarn.	piece	30000	15,0	100	13	48	The stock of raw materials is imported from other regions and sold to the domestic market
122	Surkhandarya region	Organization of reception, storage, packaging and export of agricultural products	piece	5,000 tons of product drying, 9,000 tons of powdered fruit and jam, 7,000 tons of product storage and export	12,0	160	12	46	Raw materials are grown in the district. The district is engaged in agriculture. Therefore, there are conditions for the implementation of this project.
123	Surkhandarya region	Organization of a poultry farming cluster (production of meat, semi-finished products, sausages and animal feed).	head	1,2 million head of poultry, 5,8 thousand tons of meat and meat products	10,5	35	15	42	The stock of raw materials is imported from other regions and sold to the domestic market
124	Surkhandarya region	Greenhouse (hydroponic method) (bell pepper, eggplant) 20 HA	ton	13000	10,0	40	15	44	The stock of raw materials is sold to the existing domestic market
125	Surkhandarya region	Creation of a modern clinic (inpatient treatment with 500 beds).	piece	3000	4,0	80	23	36	The presence of 2 small clinics in the district and low capacity to serve the population
126	Surkhandarya region	Creation of a waste processing plant	kg	400000	4,0	200	0,9	44	The stock of raw materials is sold to the existing domestic market
127	Surkhandarya region	Production of LED light bulbs	piece	150000	3,9	35	25	55	The stock of raw materials is brought from China, assembled in the district and sold to the domestic market at favorable prices.
128	Surkhandarya region	Opening of a fruit juice production plant.	hectare	30	3,8	35	18	40	Raw materials are grown in the district. The district is engaged in agriculture. Therefore, there are conditions for the implementation of this project.

129	Surkhandarya region	Creation of a livestock complex (1000 heads)	piece	1000	3,5	300	16	42	Cattle are imported from Austria and the population's need for meat is met
130	Surkhandarya region	Production of hoses and fittings for drip irrigation	Pagonometer	100000	3,2	40	22	36	It is appropriate to implement the project due to the fact that the district specializes in agriculture and currently has a high need for drip irrigation equipment in order to fully satisfy its water needs.
131	Surkhandarya region	Vegetable oil production	ton	10000	3,0	50	16	65	The stock of raw materials is imported from other regions and sold to the domestic market
132	Surkhandarya region	Meat processing, production of sausages, sausages and snacks	ton	8000	3,0	40	12	60	The district is partially specialized in agriculture and animal husbandry, and there are no production entities for the processing of meat stock in the district.
133	Surkhandarya region	Greenhouse film production line	Pagonometer	90000	2,6	25	20	42	The stock of raw materials is sold to the existing domestic market
134	Surkhandarya region	Creation of a specialized private school	person	6000	2,5	50	14	50	There is a need to open a private school due to the increasing population and the increasing demand for schools.
135	Surkhandarya region	Production of sockets and switches	a thousand pieces	100	2,5	35	7	70	The stock of raw materials is imported from other regions and sold to the domestic market
136	Surkhandarya region	Organization of linoleum production	sq.m	45000	1,8	50	8	70	The stock of raw materials is imported from other regions and sold to the domestic market
137	Surkhandarya region	Organization of production of accessories for textile and furniture products and accessories for auto parts.	ton	2000	1,5	25	19	28	The stock of raw materials is imported from other regions and sold to the domestic market
138	Surkhandarya region	Production of modern facing bricks	piece	45000	1,1	120	13	48	The stock of raw materials is imported from other regions and sold to the domestic market
139	Surkhandarya region	Reception center for household appliances (TV, refrigerator, washing machines)	piece	15000	0,9	50	9	48	The stock of raw materials is brought from China, assembled in the district and sold to the domestic market at favorable prices.
140	Surkhandarya region	Production of facade bricks and modern tiles.	piece	1000000	0,9	25	13	48	The stock of raw materials is sold to the existing domestic market

141	Surkhandarya region	Organization of production of PPR pipes (polypropylene)	sq.m	25000	0,8	30	15	46	The stock of raw materials is imported from other regions and sold to the domestic market
142	Surkhandarya region	Organization of production of electrical machines (switches).	a thousand pieces	300	0,8	30	15	46	The stock of raw materials is imported from other regions and sold to the domestic market
143	Surkhandarya region	Organization of production of artificial marble	sq.m	35000	0,8	50	11	46	The stock of raw materials is brought from China, assembled in the district and sold to the domestic market at favorable prices.
144	Surkhandarya region	Production of automotive and household chemicals	piece	15000	0,8	20	12	46	The stock of raw materials is sold to the existing domestic market
145	Surkhandarya region	Production of reinforced concrete slabs and concrete products	sq.m	54000	0,7	20	17	46	The stock of raw materials is brought from China, assembled in the district and sold to the domestic market at favorable prices.
146	Surkhandarya region	Organization of intensive fishing	piece	30000	0,7	20	11	36	The stock of raw materials is sold to the existing domestic market
147	Surkhandarya region	Production of various porcelain products	piece	45000	0,7	36	14	28	The stock of raw materials is imported from other regions and sold to the domestic market
148	Surkhandarya region	Production of decorative gypsum panels.	sq.m	20000	0,6	40	13	36	The stock of raw materials is brought from Boisun district and sold to the domestic market
149	Surkhandarya region	Production of woven carpets	sq.m	35000	0,5	30	15	40	The stock of raw materials is sold to the existing domestic market
150	Surkhandarya region	Organization of production of polypropylene bags	piece	80000	0,5	50	12	22	The stock of raw materials is imported from other regions and sold to the domestic market
151	Surkhandarya region	Production of spaghetti and pasta	ton	50000	0,5	40	13	30	The stock of raw materials is sold to the existing domestic market
152	Surkhandarya region	Production of plastic products	piece	25000	0,5	100	11	36	The stock of raw materials is sold to the existing domestic market

153	Surkhandarya region	Production of containers for packaging egg flakes	piece	250000	0,5	10	11,4	26	The stock of raw materials is sold to the existing domestic market
154	Surkhandarya region	Biogomus	ha.	10	0,5	10	18,5	30	The stock of raw materials is sold to the existing domestic market
155	Surkhandarya region	Production of laundry soap, perfume soap, washing powders and gels.	piece	60000	0,5	12	11,9	28	The stock of raw materials is sold to the existing domestic market
156	Surkhandarya region	Production of medical equipment (sterilized gloves, bandages and masks).	piece	30000	0,3	150	12,2	32	The stock of raw materials is imported from other regions and sold to the domestic market
157	Surkhandarya region	Production of chrome-plated PVC tapes	piece	250000	0,3	20	14	28	The stock of raw materials is imported from other regions and sold to the domestic market
158	Surkhandarya region	Production of plastic toys	piece	220000	0,2	10	16	30	The stock of raw materials is imported from other regions and sold to the domestic market
159	Surkhandarya region	Manufacturing of walls (with mesh) from metal products	piece	22000	0,2	30	10,5	24	The stock of raw materials is imported from other regions and sold to the domestic market
160	Surkhandarya region	Production of metal products (for profiles, fittings and other types of household needs).	piece	9000	0,1	8	14,5	18	The stock of raw materials is imported from other regions and sold to the domestic market
161	Surkhandarya region	Production of household appliances	piece	5	3,0	20	13	60	This project proposal is designed to meet the needs of the population for household appliances
162	Surkhandarya region	Organization of a modern greenhouse	ton	8000	19,5	200	14,96	72	With the help of modern greenhouses, this project was developed in order to meet the demand for permanent agricultural products of the population and to direct them to export.
163	Surkhandarya region	Organization of production of finished textile and clothing products and carpet weaving.	million pieces	2,5	15,0	300	14	60	In 2022, 29,200 tons of cotton were grown in the district. The processing of this grown cotton raw material has not been started in the district. This project is proposed in order to turn cotton into a finished product and export it.
164	Surkhandarya region	Organization of cottonseed oil production	a thousand pieces	2,5	8,0	70	23	60	This project is proposed to process cotton seed and start production of cottonseed oil and soft feed products for daily consumption.

165	Surkhandarya region	Creation of a poultry (egg and meat) complex.	a thousand heads	70	4,5	90	14	60	It is recommended to create new jobs to meet the daily needs of the population for eggs.
166	Surkhandarya region	Organization of flour production	a thousand ton	20	5,0	100	11	60	In 2022, 32.1 thousand tons of wheat were grown in the district. This project is proposed to create a sufficient base for population consumption
167	Surkhandarya region	Organization of intensive gardening and fruit processing	ha.	20	2,2	200	10	60	Due to the fact that the district mainly specializes in agriculture, a complex project for the establishment of modern intensive gardens and their processing has been developed.
168	Surkhandarya region	Creation of a cluster for growing lemons on the basis of a modern greenhouse (agricultural park).	ha.	20	3,0	100	13	60	With the help of modern greenhouses, this project is proposed in order to meet the demand of the population for permanent agricultural products.
169	Surkhandarya region	Organization of production of compound feed for livestock and poultry	a thousand ton	10	1,6	50	17	60	This project was proposed in order to expand the fodder base for newly formed projects in the district and for poultry and livestock kept by residents in their homes.
170	Surkhandarya region	Production, packaging and processing of polyproducts	ha.	15	1,5	25	12	60	In the district, a large amount of rice products, which are not needed by the population, are grown, but the processing is not sufficiently developed. This project aims to increase the income of the population by processing surplus crops.
171	Surkhandarya region	Organization of fisheries in artificial ponds	a thousand ton	10	1,0	70	16	60	It is recommended to create new jobs to meet the daily needs of the population for fish products.
172	Surkhandarya region	Establishment of livestock complex and organization of processing of dairy products	a thousand heads	4	3,8	60	28	60	It was aimed to establish a modern Farm and process the existing milk in the houses of the population and satisfy the demand of the population for kifer and butter products.
173	Surkhandarya region	Organization of the production of polymer products that decorate buildings	a thousand ton	1,5	1,5	20	21	60	Modern construction products deliver quality products for fast and efficient construction services
174	Surkhandarya region	Establishment of a dairy goat complex	a thousand heads	3	3,8	30	26	60	Production of goat's milk, which has great health benefits, through this complex, to meet the demand of the population for this product, and to export it to Saudi Arabia.
175	Surkhandarya region	Organization of vineyard in Voish method	ha.	110	4,2	45	14	108	There are very good conditions for the development of viticulture in the area of land to be developed in the district.
176	Surkhandarya region	Organization of production of sports goods (tatame, mat).	a thousand pieces	50	0,6	10	20	60	It is to meet the demand for sports products of the population.

177	Surkhandarya region	Mattress production	thousand square meters	10	0,3	10	15	84	Delivery of modern mattress products and effective use of existing raw material base.
178	Surkhandarya region	Production of MDF doors	thousand square meters	15	0,8	8	14	48	Improving the lifestyle of the population, supplying quality door frames and using the available raw materials efficiently.
179	Surkhandarya region	Peanut cultivation and peanut paste production	a thousand ton	1	1,2	20	13	60	The district is specialized in agriculture, which consists of rational use of land areas.
180	Surkhandarya region	Organization of the production of building materials (shkaturka (rotban), tile glue, putty, water emulsion, travertine)	ton	110	0,4	15	15	60	Delivery of quality products for modern construction products, fast and efficient construction services and efficient use of existing raw material base
181	Surkhandarya region	Modern medical services (MRT, Tomography, ECG)	US dollar	527800	0,8	30	13	60	It is to provide quality medical services to the population.
182	Surkhandarya region	Organization of carbonated and non-carbonated water production	a thousand ton	10	0,8	20	21	60	This project was developed to meet the needs of the district population for quality mineral water products.
183	Surkhandarya region	Organization of waste processing	a thousand ton	1	0,8	30	19	60	It is organized by processing secondary raw materials. There is a 5-hectare landfill in Gilambob neighborhood of the district.
184	Surkhandarya region	Organization of asphalt production	a thousand ton	40	1,0	10	23	48	Modern construction products for fast and efficient construction services, delivery of quality products and effective use of existing raw material base
185	Surkhandarya region	Establishment of a hotel	thousand square meters	1,5	0,7	25	13	72	There is space and demand for a modern hotel in the district.
186	Surkhandarya region	Organization of logistics and cold storage	ton	500	1,2	20	15	72	Since the district mainly specializes in agriculture, a complex project for the organization of cold storage and their processing has been developed.
187	Surkhandarya region	Organization of production of bicycles and wheelchairs	a thousand pieces	5	0,7	15	25	36	Bicycles and wheelchairs are in high demand in the region and are mainly imported from other regions.
188	Surkhandarya region	Production of rubber pavements by processing car tires	thousand square meters	30	0,7	25	15	60	Used tires are available, recycling is available in the district.

189	Surkhandarya region	Organization of production of BAD and antiseptic products	piece	5000	0,3	10	17	60	Based on the needs of the population for daily consumer products, this project was developed.
190	Surkhandarya region	Organization of production of PET bottles	a thousand ton	5	0,5	10	14	60	There is secondary waste in the district, which is produced by recycling.
191	Surkhandarya region	Organization of production of mineral feed (chlorella) for fish	thousand liters	150	0,7	10	14	60	There are a total of 18 hectares of fisheries in the district. This project was developed because there is no project for the production of mineral feed for fish.
192	Surkhandarya region	Establishment of a natural treatment center (medical tourism).	place	120	0,6	25	11	60	There is a natural healing sand area in the district.
193	Surkhandarya region	Organization of production of motor oils	a thousand ton	2,5	0,9	8	18	60	It consists of the production of motor oils for special agricultural machinery and cars.
194	Surkhandarya region	Organization of production of prosthetic and orthopedic products	a thousand pieces	10	0,7	10	21	60	It is organized by processing secondary raw materials.
195	Surkhandarya region	Organization of production of strollers and strollers for children	a thousand pieces	16,5	0,7	8	16	84	It was chosen to meet the needs of the district's residents for daily consumption products and also to deliver to the markets of other districts.
196	Surkhandarya region	Production of biological supplements made from medicinal plants (tablets, syrups)	a thousand pieces	50	0,6	10	15	84	This product was chosen to meet the needs of the population. Absence of pharmaceutical enterprises.
197	Surkhandarya region	Organization of production of textile labels (buttons and zippers).	million pieces	1,5	0,4	5	16	84	This product is in great demand by textile factories and was selected considering the existence of a large textile enterprise in the district.
198	Surkhandarya region	Production of sports clothes and shoes	a thousand pieces	10	0,9	25	15	84	The district has a reserve of raw materials.
199	Surkhandarya region	Production and selection of spare parts for scooters	a thousand pieces	12	1,0	8	46	24	The district is specialized in agriculture and is widely used in agriculture.
200	Surkhandarya region	Establishment of seed breeding center	ton	50	0,4	20	12	60	There is an opportunity to establish a seed farm in the district.

201	Surkhandarya region	Establishment of cement mining, cement production (Darband).	million tons	1,2	145,0	200	33	80	There are 19,517 thousand tons of raw materials.
202	Surkhandarya region	Establishment of cement mining, cement production (Sairob).	million tons	0,115	60,0	60	23	60	There are 19,517 thousand tons of raw materials.
203	Surkhandarya region	Development of Sanjar coal mine.	a thousand pieces	300	30,0	50	18	48	There are 29,906.8 thousand tons of raw materials.
204	Surkhandarya region	Quartz mining and quartz processing glass production.	ton	45000	12,0	70	16	48	There is a reserve of raw materials (Quartz (sandstone) mining area (SU0067/2022g) is available in the district).
205	Surkhandarya region	Organization of wind power generation (6 MW).	MWT	6	12,0	35	10	130	Meeting the demand for electricity.
206	Surkhandarya region	Production of glass and building glass by mining dolomite.	ton	35000	10,0	70	17	48	In the district, 20 million tons of dolomite were found in the area of "To'da MFY".
207	Surkhandarya region	Establishment of tourism zone.	person	20000	7,0	50	19	60	There is a market for realization (the number of visitors to the district on domestic tourism is increasing. In order to increase the number of these tourists, it is desirable to establish a tourism zone).
208	Surkhandarya region	Poultry, meat and eggs.	head	1.2 million head of poultry, 5.8 thousand tons of meat and meat products	5,5	50	15	48	There is a sales market (according to the statistics of Boysun district, poultry products are brought to the district from other regions. It is planned to cover this internal demand by launching a poultry complex in the district).
209	Surkhandarya region	Establishment of an international roadside service complex (Motel, restaurant, shopping complex).	sq.m	20000	5,5	65	16,1	72	Establishment of a service complex along the M39 road, this road is an international level road. About 10,000 vehicles pass daily.
210	Surkhandarya region	Establishment of gypsum mining, plasterboard production.	ton	45000	5,0	50	15,1	40	There are 4230.1 thousand tons of raw materials.
211	Surkhandarya region	Organization of household waste processing.	m/cub.	120000	4,5	10	11	40	There is a reserve of raw materials (currently, industrial waste processing in the district has not been established. These wastes are increasing year by year, waste processing is necessary to prevent the increase in the amount of waste from harming the environment).
212	Surkhandarya region	Production of medical plaster.	ton	35000	4,3	35	33	24	There is a reserve of raw materials (there is a reserve of 4230.1 thousand tons of gypsum raw materials).

213	Surkhandarya region	Cultivation of cannabis for the production of medicinal products (500 ha).	ton	500	4,0	15	12	36	An area suitable for growing drought-tolerant plants.
214	Surkhandarya region	Cultivation and processing of pavlovnia, production of wood products.	piece	200000	3,5	30	26	70	Paulownia plantations are established to meet the demand for wood in furniture production and other industries.
215	Surkhandarya region	Establishing ostrich (Straus) breeding.	head	1.2 million ostriches, 2.8 thousand tons of meat and meat products	3,5	50	15	46	Breeding ostriches in the field of poultry farming is very profitable. First: ostriches are very suitable for growing in the desert zone, and secondly: almost all products from ostriches can be processed.
216	Surkhandarya region	Production of activated carbon from coal.	ton	3000	3,4	35	16	36	There is a reserve of raw materials (there is a reserve of 29906.8 thousand tons of coal. This type of coal is 1-2% of 1 kg).
217	Surkhandarya region	Production of facade bricks and modern tiles.	piece	1200000	3,0	50	13	30	There are 2,555,000 m3 of raw material reserves.
218	Surkhandarya region	Starting asphalt production.	ton	30000	2,3	45	21	48	There are conditions for implementation and demand for asphalt production in the district.
219	Surkhandarya region	Establishment of "Health Complex" in Zovboshi tourism zone.	person	5000	2,5	50	24	36	It is located in an area with ecologically clean air.
220	Surkhandarya region	Establishment of livestock complex (small horned).	piece	10000	2,5	10	16	48	Large horn cattle breeding complexes established in the ecologically suitable district for small horn cattle breeding have not justified themselves. Based on the ecological point of view of the district, it is necessary to establish small-horn cattle breeding.
221	Surkhandarya region	Packaging and export of dried fruits and vegetables	ton	6000	2,5	50	13	48	There is a stock of raw materials. Processing, drying and packing of fruits and vegetables grown in the district for export.
222	Surkhandarya region	Collection and processing of sheep's wool	ton	15	2,5	15	12	36	The district is an ecological area suitable for raising small horned cattle. Apart from that, wool processing has not been started yet.
223	Surkhandarya region	Ferula (blanket) cultivation, processing and production of medicines.	ton	6000	2,4	25	11	36	An area suitable for growing drought-tolerant plants.
224	Surkhandarya region	Establishment of almond plantations.	ha.	400	1,8	22	12	60	An area suitable for growing drought-tolerant plants.

225	Surkhandarya region	Establishment of vineyard (200 GA).	ha.	200	1,8	8	11	60	An area suitable for growing drought-tolerant plants.
226	Surkhandarya region	Establishment of pistachio plantations.	ha.	500	1,6	10	11,7	60	An area suitable for growing drought-tolerant plants.
227	Surkhandarya region	Lime plant (SO2 and lime).	ton	45000	1,5	25	22	24	There are 5128 thousand tons of raw materials.
228	Surkhandarya region	Establishment of the fastest charging stations for electric cars.	piece	5	1,5	5	10	48	Due to the increase in the number of electric cars in the district, this project is proposed for the purpose of developing the infrastructure of the electric car industry.
229	Surkhandarya region	Lavender cultivation, processing.	ton	8000	1,5	8	12,5	48	An area suitable for growing drought-tolerant plants.
230	Surkhandarya region	Construction products are dry mixes (Shpaklyovka, Rodband).	ton	35000	1,2	20	14	48	There is a stock of raw materials (gypsum and gypsum slag are available in the district).
231	Surkhandarya region	Production of profile and clip (podves).	piece	25000	1,3	25	23	36	There is a market for realization (it is planned to produce plasterboard products in the district. Profiles and agraph (podves) are mostly sold together, so production in the district is profitable).
232	Surkhandarya region	Coke production.	ton	8000	0,8	15	14	36	There is a reserve of raw materials (there is a reserve of 29,906.8 thousand tons of coal raw materials).
233	Surkhandarya region	Production of plastic goods.	piece	55000	0,6	10	11	36	There is a sales market (all plastic bottles sold in the district are brought from other regions. The production of plastic bottles has not been established in the district. Therefore, it is possible to additionally organize the production line of polyethylene pipes).
234	Surkhandarya region	Biogomus	sq.m	10000	0,5	10	18,5	30	There is a market for realization.
235	Surkhandarya region	Cultivation and packaging of medicinal plants.	ton	2000	0,6	15	14	36	There is a stock of raw materials (according to Boysun district forestry department, there are more than 10 medicinal plants in this district).
236	Surkhandarya region	Organization of honey collection and packaging network.	ton	2000	0,4	3	17	48	There are conditions for the development of beekeeping. There is a world of flora that bees need. There is a demand for pure honey throughout Uzbekistan (Decision of the President of the Republic of Uzbekistan, No. PQ-3327 dated 10.16.2017).

237	Surkhandarya region	Production of household soap, perfume soap, laundry detergents, and gels.	piece	50000	0,2	12	11,9	28	The stock of raw materials is imported from another region. The finished product is sold in the district.
238	Surkhandarya region	Packaging of drinking water.	ton	40000	0,1	10	13	28	There is a reserve of healing drinking water.
239	Surkhandarya region	Travertine - production for interior and exterior facades	piece	55000	0,1	10	12	24	The district itself and neighboring districts have a demand and sales market
240	Surkhandarya region	Production of gas blocks	piece	40000	0,1	10	14	12	The district itself and neighboring districts have a demand and sales market
241	Surkhandarya region	Processing of grape products (wine production).	ton	6500	0,9	50	18	48	The stock of raw materials is sufficient for domestic and foreign market
242	Surkhandarya region	Production of plastic pipes and fittings	ton	2760	4,2	26	33	48	Raw materials are imported from other regions and sold to the domestic and foreign markets
243	Surkhandarya region	Production of coke from coal	ton	10000	8,2	30	48	24	The stock of raw materials is sufficient for domestic and foreign market
244	Surkhandarya region	Production of PET fiber (sintepon).	ton	4080	0,4	15	16	36	The stock of raw materials is sold to the existing domestic and foreign markets
245	Surkhandarya region	Poultry cluster production (meat, semi-finished products, sausages).	ton	622	1,2	46	20	82	There is an industrial zone for the establishment of a poultry cluster
246	Surkhandarya region	Production of fruit concentrate, pectin, baby fruit food and dairy products	pectin 125 tons, concentrate 2600 tons,		32,6	190	45,3	48	Only 10% of fruits and dairy products grown in the district are processed, which in turn shows the wide potential of raw materials.
247	Surkhandarya region	Bicycle tire production	piece	450000	0,8	20	35	24	The stock of raw materials is sold to the existing domestic and foreign markets
248	Surkhandarya region	Creation of a livestock complex (2000 heads)	head	2000	4,7	100	16	81	In the territory of Mingchinor MFY, there are land areas for cattle breeding.

249	Surkhandarya region	Production of polyethylene thread by recycling plastic waste	ton	15000	0,8	20	44	24	Raw materials are sold to the existing domestic and foreign markets
250	Surkhandarya region	Production of children's toys	piece	23000	0,7	20	17	36	raw materials are not available, they are imported from other regions and sold to domestic and foreign markets
251	Surkhandarya region	Creation of a medical center	place	15300	2,1	15	47	24	Currently, there is no health center in Oltinsoy district
252	Surkhandarya region	Bicycle production	piece	2000	1,0	36	46	36	It is sold to the domestic and foreign markets.
253	Surkhandarya region	Organization of extraction and export of olive oil through the creation of "Olive Plantations".	million liter	3	2,3	50	69	36	There are two reserve lands for horticulture in the territory of Karsagan neighborhood
254	Surkhandarya region	Production of reinforcement for construction work based on basalt.	ton	15000	1,8	60	46	24	Basalt raw materials are available in Khojaipok MFY area
