

Investment projects developed based on the results of the analysis of the economic potential of the regions of the Republic of Karakalpakstan

№	Region	Project name	Capacity		Project cost (million dollars)	Jobs	IRR (%)	PP	Note
			measurement	quantity					
322					877,0	12 152,0	23,8		
	Republic of Karakalpakstan								
1	Republic of Karakalpakstan	Production of porcelain, electro-porcelain, faience	piece	18000000	7,1	170	13	51	There is a natural reserve of kaolin in the Amudarya district, which allows the production of porcelain products
2	Republic of Karakalpakstan	Fabric and fabric dyeing production project	ton	2000	14,7	101	19	50	Existing facilities and newly established enterprises producing knitted products in the district will receive ready-made fabric from other regions. The district grows 40-45 thousand tons of cotton on 14 thousand hectares. Only 6000 tn in the district. There is a yarn factory, the next step is fabric and it is not dyed.
3	Republic of Karakalpakstan	Salt production	thousand tons	75	6,4	80	22	50	The northern parts of the republic are rich in salt deposits. The entrepreneur "Mang'it meva bogi" LLC has announced the implementation of a large-scale salt import/export project and has sufficient potential.
4	Republic of Karakalpakstan	Production of knitted products	million pieces	2,845	11,8	402	15	82	The district grows 40-45 thousand tons of cotton per 14 hectares. Only 6000 tn in the district. There is a yarn manufacturing enterprise, the next step is fabric and dyeing, which creates a cycle of finished textile products.
5	Republic of Karakalpakstan	Syntheophone production	ton	5000	8,3	78	15	70	UZ-KOR GAZ CHEMICAL QQ is the largest producer of polymers in the Kyrgyz Republic. The initiator "Diora-Oltinoy" LLC plans to implement this project, taking into account the proximity of the raw material base and the fact that there is no demand for synthetic resin in the region.
6	Republic of Karakalpakstan	Metal construction production	sq.m	150000	7,5	76	14	72	A large metal deposit has been discovered in Karauzak district, and the construction of a metallurgical plant has started today. Due to the proximity of the raw material base, the proposed project will be able to produce large-scale metal constructions that are not produced in the Republic of Kazakhstan.
7	Republic of Karakalpakstan	Establishment of a poultry complex Broiler (20 thousand heads)	ton	400	2,3	36	15	56	It is proposed taking into account the lack of chicken meat in the consumption indicators of the district and the possibilities of project implementation.
8	Republic of Karakalpakstan	Fruit processing projects through the organization of a fruit and vegetable cluster (production of apple juice, jam, etc.)	jar	1000000	3,7	82	15	55	20 535 tons from 1953 hectares in 2023 in the district. It is planned to grow 21,460 tons of fruit and 1,568 ha of sugarcane. However, there are no enterprises that create additional value by processing these products in the district.

9	Republic of Karakalpakstan	Establishment of a 1,000 head livestock complex	ton	350	5,5	31	13	58	The district has pasture lands and there are sufficient conditions for the establishment of livestock complexes.
10	Republic of Karakalpakstan	Grape processing through the establishment of a viticulture cluster	thousand tons	10	3,9	78	26	62	331 hectares in 2023 in the district. 2 761 tons. The cultivation of grapes is organized. There are no enterprises that create additional value by processing this product in Patroni district.
11	Republic of Karakalpakstan	Leather processing	piece	500000	2,2	26	18	54	Residents and farmers have more than 5,000 cattle in the district, and there are no leather processing enterprises
12	Republic of Karakalpakstan	Establishment of an intensive fishing complex	ton	1200	2,9	36	36	52	In comparison with ordinary lakes, the area of intensive bee cultivation is less demanding, and it gives a higher yield
13	Republic of Karakalpakstan	Armature production	ton	5000	0,8	50	17	54	A large metal deposit has been discovered in Karauzak district, and the construction of a metallurgical plant has started today. Due to the closeness of the raw material base, the Takf project will be able to produce both portable and non-manufacturable fittings in the GKR.
14	Republic of Karakalpakstan	Production of iron forks and spoons and other household items	million pieces	1,5	2,4	60	12	58	A large metal deposit has been discovered in Karauzak district, and the construction of a metallurgical plant has started today. Due to the proximity of the raw material base of the proposed project, there is no production enterprise of non-ferrous metal household goods in the GKR.
15	Republic of Karakalpakstan	Plasterboard production	sq.m	600000	7,2	50	13	80	According to the Geology Committee, there are gypsum deposits under construction in the neighboring Karauzak district, 15-20 km away from the Amudarya district. There are no large gypsum board production enterprises that are in demand on the market of the Kyrgyz Republic. Due to the quality of the raw material, the cost of the product will be low, and the import of this product will be stopped.
16	Republic of Karakalpakstan	Production of sausage products	ton	355	1,0	36	25	82	There are no meat processing enterprises in the district.
17	Republic of Karakalpakstan	Production of polypropylene products	tons	1250000	1,3	40	34	40	UZ-KOR GAZ CHEMICAL LLC is the largest producer of polymers in the Republic of Kazakhstan. There are few production facilities for polypropylene products in the district and neighboring Khorezm.
18	Republic of Karakalpakstan	Silk processing	ton	72	0,4	35	13	57	The district has a high quality sericulture base but no silk processing. The existing one is also in bankruptcy.

19	Republic of Karakalpakstan	Production of interior MDF doors for apartment buildings	piece	50000	1,0	40	30	51	There is no company producing standard doors for multi-storey buildings in the district, other districts of the QRK and Khorezm region. The demand is covered by enterprises in Tashkent.
20	Republic of Karakalpakstan	Yablochnyy cider production	million pieces	0,45	0,2	29	14	32	There is not enough apple growing in the district to process it. This product is in demand in the export market.
21	Republic of Karakalpakstan	Production of confectionery products	ton	148	0,6	28	17	56	There is no company producing high-quality modern confectionery products for the population.
22	Republic of Karakalpakstan	Production of bread and bakery products	million pieces	1	0,2	28	28	40	There is no enterprise that produces high-quality modern bread products for the population.
23	Republic of Karakalpakstan	Production of rubber products by processing used auto tires	ton	1300	0,3	16	25	52	In Amudarya and other districts, there are no rubber and polyethylene processing enterprises that have become unusable.
24	Republic of Karakalpakstan	Production of drip irrigation equipment	piece	300000	0,6	25	22	55	This project was introduced considering the future water shortage and the availability of about 20,000 hectares of arable land in the district. There is no such enterprise in the region.
25	Republic of Karakalpakstan	Milk processing	ton	222	0,1	23	30	50	Residents and farmers have more than 5,000 cattle in the district, and there are no milk processing enterprises.
26	Republic of Karakalpakstan	Production of French fries	ton	360	1,2	39	22	5	In 2023, the district produced 19,430 tons on 1,674 ha. potatoes are intended for cultivation, but there are no enterprises that process potatoes and produce value-added products.
27	Republic of Karakalpakstan	Tomato production	jar	1000000	1,4	29	23	54	2023 to 1568 ha in the district. It is planned to grow 21,460 tons of rice. However, there are no enterprises in the district that create additional value by processing these agricultural products, especially tomatoes.
28	Republic of Karakalpakstan	Processing of legume products	ton	400	0,9	41	19	26	1,335 ha in 2023 in the district. It is planned to grow 1,375 tons of legumes. But in the district there are no enterprises that create additional value by processing these crop products.

29	Republic of Karakalpakstan	Carrot juice production	thousand liters	800	0,3	30	24	27	2023 to 1568 ha in the district. It is planned to grow 21,460 tons of rice. However, there are no enterprises in the district that create additional value by processing these agricultural products, especially carrots.
30	Republic of Karakalpakstan	Cultivation of seed varieties	ton	6143	0,4	36	31	50	The main driver of the district is agriculture, but there are no quality seed production facilities to increase productivity.
31	Republic of Karakalpakstan	Vermiculite processing	ton	2000	0,5	40	18	51	According to the geological committee, this raw material is available in the neighboring regions of Karauzak district and Amudarya district. Vermiculite ranks high in thermal insulation, the northern part of the Kyrgyz Republic has the lowest temperature in winter. There is an opportunity to recycle these raw materials and the project will pay for itself in the short term.
32	Republic of Karakalpakstan	Production of children's shoes	a thousand pairs	500	1,9	113	25	82	About 30% of the population of the Amudarya district of the KKR are young children, but children's shoes are not available. The demand is covered at the expense of other regional enterprises.
33	Republic of Karakalpakstan	Production of adult shoes	a thousand pairs	200	1,3	75	25	80	70% of the population of the Amudarya district, including the KKR, is over 18 years old, but there is no adult footwear. The demand is covered at the expense of other regional enterprises.
34	Republic of Karakalpakstan	Drinking water production	piece	10686000	1,2	61	33	30	The territory is an island region and there is a need for clean drinking water. There are no enterprises working "legally" with the production of drinking water.
35	Republic of Karakalpakstan	Honey production	ton	52	0,0	6	24	36	The district has great potential.
36	Republic of Karakalpakstan	Turkey meat production	ton	640	3,2	104	28	56	There is a lot of pasture land and this turkey can be grown quickly and gives cheap meat. There are no turkey farms.
37	Republic of Karakalpakstan	Production of gas blocks	m/cub.	30000	1,6	25	18	55	There are many constructions and other such production enterprises in the district. The project can pay for itself in 18 months.
38	Republic of Karakalpakstan	Production of household soap	ton	6000	0,9	32	31	29	There is no producer of farm soap by processing the cotton seed grown in the district. There is no problem with the raw material and the product is in demand.

39	Republic of Karakalpakstan	Production of washing powder	ton	1200	1,2	89	18	52	There is no production of this product, which is necessary in the economy, in the District and its neighboring areas.
40	Republic of Karakalpakstan	Production of socks	a thousand pairs	1000	0,3	20	38	30	This type of product production, which is in constant demand, does not exist.
41	Republic of Karakalpakstan	Production of household appliances	piece	15000	0,3	20	27	31	Mangit Trade OK said that they have experience in this field and that there is a demand for the products they produce. The TEO based on the initiative is developed by the consulting company.
42	Republic of Karakalpakstan	Licorice root processing (Glitsizirovannaya acid production)	ton	37	11,0	50	12,7	84	The district is rich in licorice raw materials, five enterprises exported 3.2 million US dollars worth of licorice extract in 2021 and 1.8 million US dollars in 2022, but there is no post-extraction stage in Uzbekistan. For this reason, the project of extracting Glitsizirovannaya acid from licorice extract was introduced. Glycyrrhizic acid is added to more than 30% of pharmaceutical products.
43	Republic of Karakalpakstan	Production of solar and electric water heaters	piece	5500	0,7	10	12,9	60	It is an alternative energy source that reduces the demand for electricity. In the first stage of the project, spare parts will be brought from Namangan and Tashkent, and in the second stage they will be brought locally.
44	Republic of Karakalpakstan	Production and packaging of dry milk	ton	135	1,5	15	13,1	60	The issue of raw materials: there are 2,700 cows at the disposal of the population and farms in the district, and an average of about 5,000 tons of milk is produced per year.
45	Republic of Karakalpakstan	Production of household containers from plastic	pcs	dona	0,4	13	20,3	36	Raw materials: obtained from UzKorgaz and the stock exchange. This type of release is not available in QQR.
46	Republic of Karakalpakstan	Production of plastic roof assembly	kv.m	kv.m	0,3	11	12,3	60	In April 2023, when the President visited Karakalpakstan, he emphasized that the residents of this region would be encouraged to build houses individually. This type of product is in high demand in construction.
47	Republic of Karakalpakstan	Production of blankets and pillows from synthetic yarn	kg	1690500	11,5	60	12,2	84	Raw materials: synthetic thread, netkanny material available in Bukhara, Navoi and Namangan. This product is not produced in the QR, due to its size, the cost of transportation from Abu Sakhi and Khazarasp is high.
48	Republic of Karakalpakstan	Organization of logistics center	ton	5000	8,5	37	11	84	The district is located on the M-38 highway of international importance, the logistics center included in the project has 25,000-ton freezer warehouses, large trucks, and serves to transport products grown in the territory to foreign countries.

49	Republic of Karakalpakstan	Production of dry construction mixes	ton	5441	0,3	10	28,9	36	In 2023, 10 thousand square meters in the district. Construction works are planned. Production of building materials is not developed in the district and nearby areas. Dry construction mix is not produced in Konlikol and nearby districts.
50	Republic of Karakalpakstan	Animal feed production	ton	3036	0,1	14	35,4	36	As of 01.01.2023, there are 1,278 large horned cattle at the disposal of the district's farms and residents, and there are no enterprises that produce fodder based on rations.
51	Republic of Karakalpakstan	Confectionery production	kg	255530	0,4	15	42	36	The food sector is not developed in the district. There are enterprises that supply quality food products to the population.
52	Republic of Karakalpakstan	Production of metal structures	ton	1000	3,0	25	29,2	74	The state leadership is paying special attention to the development of Moynaq, Kongirod and other regions of the KKR. As a result, large production facilities are being built in the region. But the metal constructions used in the construction of these facilities are imported from other regions at great expense. Objects built from metal structures are fast and inexpensive. Especially in recent years, the objects built from sandwich panels are based on metal constructions.
53	Republic of Karakalpakstan	Production of DVP from licorice root waste	kv.m	624722	2,6	60	30,2	84	Konlikol district has a large reserve of jugular vein, but there are no directions for processing jugular vein from the extract.
54	Republic of Karakalpakstan	Travertine production	ton	1518	0,5	10	36,7	36	Travertine coating paints are imported from other regions. Today, 90% of facade works in construction are made of travertine. Considering that there is a lot of construction going on in the district and nearby areas, the product of this project is in high demand. The project will pay for itself in a short time.
55	Republic of Karakalpakstan	Production of oil products	ton	10000	8,9	50	32	60	The district averages 10-11 tn per year. Cotton is grown, but there are no enterprises that produce cotton fiber and process seed in the district itself.
56	Republic of Karakalpakstan	Establishment of flour production on the site of the former Rice Factory	ton	33957	5,2	22	16,6	60	The buildings and structures of the Qonliqol brass production/production branch of "Kongirod Un Zavodi" JSC are put up for sale (auksion.uz). District 5.0-5.5 thousand tons per year. It grows wheat, but its processing is not organized.
57	Republic of Karakalpakstan	Production of tomato paste	ton	2500	0,8	10	46	36	About 9,000 tons of sugarcane crops are grown in the district on an average of 700-800 hectares per year, but there are no processing enterprises at all.
58	Republic of Karakalpakstan	Sesame oil production	ton	1834	1,2	12	57,4	36	In 2023, it is planned to grow 4,610 tons of legumes and oil crops on 3,636 hectares, but there are no processing capacities at all.

59	Republic of Karakalpakstan	Production of bakery products	piece	600000	0,5	6	19,4	36	It is presented in order to meet the demand of the district population for bread and bakery products.
60	Republic of Karakalpakstan	Organization of fishing	ton	500	1,2	20	30,3	60	The development of the cultivation of fish products in the KKR is backward, products are delivered from Khorezm and Vadi regions. 1 kg of carp costs 40-45 thousand soums in Tashkent, and 65-70 thousand soums in the Kyrgyz Republic. Intensive fish farming is productive, from 1 pond to 10 tons of fish.
61	Republic of Karakalpakstan	Livestock complex (meat and milk)	ton	3431	3,5	40	17,5	84	The project launch is 200 tn per year. It will be possible to give meat and 150 thousand liters of milk.
62	Republic of Karakalpakstan	Packaging of dried fruits	ton	950	0,8	8	25,2	36	There are no processing facilities for fruits grown in the district.
63	Republic of Karakalpakstan	Poultry complex with 10,000 heads	head	10000	0,2	20	36,4	36	The population of the district is 53.1 thousand people, the rate of consumption of poultry meat is 72%. Today, there are no poultry farms in the district.
64	Republic of Karakalpakstan	Primary processing of beef in slaughterhouses	ton	2506	0,8	6	46,5	36	As of 01.0.1.2023, there are 1,278 large horned cattle at the disposal of district farms and residents, and there are no modern primary processing poultry houses.
65	Republic of Karakalpakstan	Production of fruit juice	ton	800	0,2	12	45,5	36	There are no enterprises that process fruits and grapes in the district, despite the fact that on average more than 1500 tons of fruits and grapes are grown per year.
66	Republic of Karakalpakstan	Turkey meat production	head	30000	0,4	10	33,5	36	Turkey meat is produced quickly and cheaply, satisfying the population's demand for meat.
67	Republic of Karakalpakstan	Production of water emulsion paints	ton	2024	0,1	15	43,7	36	In 2023, 10 thousand square meters in the district. Construction works are planned. Production of building materials is not developed in the district and nearby areas. Water emulsion paints are imported from other regions.
68	Republic of Karakalpakstan	Yarn production mini-project (Namangan experience)	ton	309	0,6	20	32,7	60	District Hokims during their visit to Namangan got acquainted with the yarn production mini-project and commissioned the consulting company to implement such a project. Average annual production in the district is 10,000 tons. cotton is grown, but there are no cotton processing enterprises. This project is low cost and high profitability.

69	Republic of Karakalpakstan	Production of toys	piece	166040	4,7	22	15,4	60	UzKorgaz, which is located nearby, will be able to start production from polypropylene raw materials, which will allow to start production with low cost and which is not available in the region.
70	Republic of Karakalpakstan	Production of cones for spinning yarn	ton	874	1,0	10	27,8	60	There are 3 spinning mills within a radius of 100 km, and it will be acceptable to supply them with the cones required for production. Payback period is fast and profitability is high.
71	Republic of Karakalpakstan	Production of farm houses	piece	40	0,1	25	21,8	36	Fenugreek is a world-famous rare herb. The development of this direction will serve the development of handicrafts and the promotion of the culture of carp.
72	Republic of Karakalpakstan	Starch production	ton	3036	0,8	10	38,4	36	Starch is in high demand in the food industry, and there are no potato processing enterprises in Konlikol and other districts.
73	Republic of Karakalpakstan	Production of corrugated boxes	ton	506	1,1	12	10	84	There are no waste processing enterprises in the district and nearby areas.
74	Republic of Karakalpakstan	Organization of production of sewing products (special clothes).	ton	850	7,0	210	15,2	84	9,500 tons of yarn are grown in the district, "Kanteks" LLC planned to set up lines for yarn production and dyeing, but the district does not have the next level of production of ready-made clothes. During the studies, it was found that "Everest Cluster" LLC (not a district cluster enterprise) is interested in establishing a sewing enterprise, and this project was introduced
75	Republic of Karakalpakstan	Launching of gas production and painting shop	ton	1727	10,2	537	16,8	84	9,500 tons of yarn is grown in the district, "Kanteks" LLC (not a cluster enterprise of the district) planned to install yarn spinning and dyeing lines, but the district does not have the next stage of ready-made clothes production. In the conducted studies, it was revealed that there is an interest in establishing a sewing enterprise "Everest Cluster" LLC, and this project was introduced
76	Republic of Karakalpakstan	Production of furniture products	set	1771	3,7	20	20,4	36	The project is being introduced as a supplier of kitchen furniture to apartments being built and delivered ready-made in the massifs of New Uzbekistan.
77	Republic of Karakalpakstan	Processing of silk products	ton	137,5	10,2	120	45,8	60	By the decision of the District Hokim on March 6, 2018, 121 ha of land was allotted to KONLIKOL IPAGI JSC for mulberry cultivation, today the entrepreneur has planted only 50 ha of mulberry. He built 3/1 of the silk processing buildings. When talking to the entrepreneur, he said that he did not have specific information about the silk market, but that he had the financial ability to start the project. Therefore, TEO based on this project is being developed.
78	Republic of Karakalpakstan	Cultivation and processing of medicinal plants	ton	720	2,5	50	15,7	84	Konlikol has a large reserve of medicinal plants, but their processing and production of pharmaceutical products has not been established.

79	Republic of Karakalpakstan	Production of bandages and gauze from yarn waste	ton	136	0,7	30	28,3	36	It is proposed to organize the production of bandages and gauze from the residual waste of yarn factories in Shumanay and Qonlikol.
80	Republic of Karakalpakstan	Cheese production	ton	500	3,6	10	19,7	60	It is a project of processing milk produced in the district, and studies have revealed that there is no cheese production in the KKR, and this product is satisfied at the expense of the neighboring Khorezm and other regions.
81	Republic of Karakalpakstan	Organizing a greenhouse (strawberry)	ton	500	2,9	57	14,5	84	Strawberries are grown in the greenhouse, packed and delivered to nearby areas and supermarkets in other regions, helping to provide food to the population.
82	Republic of Karakalpakstan	Cultivation and processing of golubika (bush fruit) in the greenhouse method	ton	500	18,7	120	9,46	130	OOO "Starberry group" studied the possibilities in the district and the opinions of specialists-agronomists, and the project calculations were studied with the SQB Consulting company. District Administration is ready to allocate 12 hectares of land for the project.
83	Republic of Karakalpakstan	Production of electric cables and wires	million cartridge	17	19,0	62	21,84	48	There are no cable and wire manufacturing enterprises in Karakalpakstan. If the project is launched, along with other manufacturing enterprises, raw materials will be purchased from AGMK and the stock exchange.
84	Republic of Karakalpakstan	Fabric production organization	ton	3600	5,0	108	40,41	39	The project was proposed and substantiated to "SANNI TEX" LLC of Samarkand region. The entrepreneur announced the implementation of the project. The land issue was resolved by the district administration.
85	Republic of Karakalpakstan	Creation of a poultry complex on the site of the former broiler plant	a thousand heads	960	8,0	40	52,44	34	NUKUS BROLLER LLC purchased a former broiler factory and was presented with a chicken meat production project at the 1st stage by the consulting company. Due to the fact that today there are more than 250,000 poultry at the disposal of residents and f/farms in Nukus district, and the launch of projects aimed at breeding 2.5 million poultry in the district in the next year will increase the demand for chicken feed, "NUKUS BROLLER" LLC, 2nd stage of modern mineral 2025 The TEO of the chicken feed production project was developed.
86	Republic of Karakalpakstan	Production of chicken feed	ton	3200	7,3	35	10,63	76	
87	Republic of Karakalpakstan	Animal feed production	ton	5000	5,0	12	21,24	58	The population and farms of the region contain more than 41.3 thousand heads of cattle, and as soon as the project is launched, feed enriched with minerals will be produced.
88	Republic of Karakalpakstan	Establishment of an intensive fishing complex	ton	100 TH	1,3	15	66,74	30	LLC "KAREKEN SAZANI"

89	Republic of Karakalpakstan	Organization of agrolgistka complex	piece	2500	2,5	55	45,78	34	The fish breeding project will be implemented in winter and spring in indoor pools.
90	Republic of Karakalpakstan	Establishment of a refrigerated warehouse	ton	1200	0,5	11	36,39	42	The region has 30 hectares of cultivated land and lacks agricultural equipment. The complex provides services to the population and households
91	Republic of Karakalpakstan	Production of medical gloves	piece	3000000	1,7	33	39,08	30	It is planned to store and package Poliz products for export.
92	Republic of Karakalpakstan	Paper waste processing and paperboard production	ton	3000	1,2	20	8,56	78	It is in great demand in the medical field. There is no such production in the area. Raw materials: along with all manufacturers, it can be freely purchased on the exchange, and QQR management should consider the possibility of obtaining a limit from UzKorgaz on raw materials for such projects.
93	Republic of Karakalpakstan	Leather processing	m/cub.	5000	3,0	37	14,38	66	The area produces 5,200 tons per year. production of cardboard boxes for packaging from recycling waste.
94	Republic of Karakalpakstan	Drying and packaging of poly products	ton	5000	2,8	64	16,99	60	In the region, the population and farms have more than 5,000 heads of cattle; there are no tanneries.
95	Republic of Karakalpakstan	Production of canned vegetable products	ton	3000	0,6	28	40,91	34	More than 5,000 tons of polis products are grown in the region per year, but there is only 1 processing plant, and a small part of the total harvest is processed.
96	Republic of Karakalpakstan	Production of fish feed	ton	3000	1,4	39	30,08	42	More than 5,000 tons of polis products are grown in the region per year, but there is only 1 processing plant, and a small part of the total harvest is processed.
97	Republic of Karakalpakstan	Production of sausage products	ton	365	0,8	28	40,17	56	There are 60 fish farms in the region, and 3 more large projects are planned to be implemented in the next 3 years. Fish food is 100% imported. The product will be localized immediately after the launch of the project.
98	Republic of Karakalpakstan	Production of dried tomatoes	ton	84	1,0	28	45,53	30	The raw material is African varnish. There is a farm in the area that grows this type of fish. There is no sausage production.

99	Republic of Karakalpakstan	Production of tomato paste	ton	3000	1,5	28	37,79	24	In the population and farms of the region, the number of cattle exceeds 41.3 thousand heads; there are no meat processing enterprises.
100	Republic of Karakalpakstan	Production of confectionery products	million pieces	2	0,4	21	17,79	62	More than 5,000 tons of polis products are grown in the region per year, but there is only 1 processing plant, and a small part of the total harvest is processed.
101	Republic of Karakalpakstan	Canned fish production	ton	2000	0,8	28	23,47	50	There are no modern enterprises for the production of confectionery products in the region that provide for the consumption of the population.
102	Republic of Karakalpakstan	Sesame processing	ton	2000	1,0	28	51,99	24	There are more than 60 fish farms in the area, new production facilities are planned, and in the future there will be a need for a fish processing project.
103	Republic of Karakalpakstan	Production of fruit jam	ton	3000	0,7	28	42,99	42	More than 5,000 tons of polis products are grown in the region per year, but there is only 1 processing plant, and a small part of the total harvest is processed.
104	Republic of Karakalpakstan	Carpet production	piece	4000	0,8	20	22,37	40	There are no fruit processing enterprises in the area.
105	Republic of Karakalpakstan	Furniture production	piece	2000	0,3	12	18,43	60	The carpet market in the PKR was studied with the initiator, it was found that carpet products are completely imported and the project will pay off if the project is launched.
106	Republic of Karakalpakstan	Coal briquette production	ton	8000	2,9	18	53,44	6	There are no enterprises producing modern furniture in the area.
107	Republic of Karakalpakstan	Production and processing of champignon corn	ton	800	1,7	18	18,42	60	Due to the harsh winter season in residential areas, there is a need for alternative heating in households.
108	Republic of Karakalpakstan	Production of sodium bicarbonate (baking soda).	ton	6000	1,7	41	23,89	42	Nukus region is an innovation district, and the project has been submitted to the Innovation Agency for consideration. The area has all the capabilities to implement the project.
109	Republic of Karakalpakstan	Cinder block production	million pieces	2	0,3	12	22,45	56	It is introduced to meet the demand for building materials.

110	Republic of Karakalpakstan	Production of mesh used in construction	thousand tons	200	0,2	14	21	56	It is introduced to meet the demand for building materials.
111	Republic of Karakalpakstan	Production of bread and bakery products	million pieces	2	0,3	12	44,74	34	There are no modern enterprises producing a wide range of bread in the area.
112	Republic of Karakalpakstan	Production of window frames	piece	4000	0,3	13	37,89	28	It is introduced to meet the demand for building materials.
113	Republic of Karakalpakstan	Organization of production and export of biohumus	ton	3000	1,1	18	36,42	48	Ingredients: flour, spices, baking soda, dried lime. More than 650,000 residents of the Republic of Kazakhstan have permanent jobs and provide cheap and fast food.
114	Republic of Karakalpakstan	Production of noodles	pack	500000	1,3	35	42,44	34	There is not a single enterprise in the region capable of extracting and processing 1,500 tons of carrots.
115	Republic of Karakalpakstan	Sorting and packing mash	ton	5000	0,4	28	40,79	20	More than 2,000 tons of grain legumes and oilseeds are grown in the region, but there are no enterprises for their processing.
116	Republic of Karakalpakstan	Production of potato chips	ton	3000	1,3	28	33,09	38	assembled, spare parts are localized.
117	Republic of Karakalpakstan	Production of LED lamps	piece	70000	0,8	28	42,88	39	A project will be developed to export products in a modern way.
118	Republic of Karakalpakstan	Drinking water production	thousand liters	80	0,7	28	32,23	42	There are no drinking water companies. Drinking water is imported from other regions.
119	Republic of Karakalpakstan	Production of disposable cups and dishes	million pieces	3	0,4	12	16,28	60	Document processing
120	Republic of Karakalpakstan	Production of polypropylene bags	a thousand pieces	300	0,7	28	35,2	42	Polypropylene raw materials from UzKorgaz will be used for the production of non-extractable products in the region.

121	Republic of Karakalpakstan	Production of plasma boxes	a thousand pieces	1000	0,7	18	21,72	60	Polypropylene raw materials from UzKorgaz will be used for the production of non-extractable products in the region.
122	Republic of Karakalpakstan	Organization of production of ceramic tiles	sq.m	12000	8,2	190	23	36	There are no ceramic products in the area.
123	Republic of Karakalpakstan	Establishment of a wind power station from the land allocated from Kungirotdistrict	MWT	13	28,0	50	34	48	The implementation of this project is necessary to meet the demand for electricity resources.
124	Republic of Karakalpakstan	Poultry cluster organization	ton	100	1,5	30	17	48	The area has available premises for poultry farming and irrigated arable land that provides a food supply.
125	Republic of Karakalpakstan	Organization of production of cotton threads and knitted products	ton	6000	20,2	600	17	60	To further develop the work of the company that is currently operating
126	Republic of Karakalpakstan	Production of flour products	a thousand pieces	140	4,3	62	26	60	The region produces 10 thousand tons of raw materials per year, but there are no processing plants.
127	Republic of Karakalpakstan	Construction of logistics center: Hostel, Cafe	Number of trips	8000	1,0	30	15	52	Not in the area, but a major international highway passes through the area.
128	Republic of Karakalpakstan	Organization of a children's entertainment resort	Number of trips	90 000	1,8	30	35	84	It is necessary to organize a modern epic entertainment center for children in the area.
129	Republic of Karakalpakstan	Establishment of a fitness center	person	6000	1,5	10	33	36	It is necessary to ensure the health of the population.
130	Republic of Karakalpakstan	Fruit and vegetable processing	ton	28000	4,4	30	32	36	Fruit processing in the region is not fully developed.
131	Republic of Karakalpakstan	Production of dry fodder	ton	30	3,8	44	57	36	The region produces 15 thousand tons of raw materials per year. But the tool was not used effectively.

132	Republic of Karakalpakstan	Footwear production	pair	480000	0,9	44	37	48	There is enough leather raw material for processing in the region.
133	Republic of Karakalpakstan	Organization of breeding cattle activity of livestock farm	tn liter	6 /730,000	0,4	6	21	48	. As a result of the implementation of this project, the production of meat and dairy products in the food sector will increase.
134	Republic of Karakalpakstan	Establishment of a health center	Number of trips	15600	1,2	38	28	48	It is necessary to ensure the health of the population.
135	Republic of Karakalpakstan	Foam block production	m/cub.	3000	1,5	19	32	36	It is necessary to organize production based on the population's demand for these products.
136	Republic of Karakalpakstan	Production of cottonseed oil	thousand liters	10	5,0	60	87	48	The region has 10,000 tons of raw cotton and more than 2,000 skilled labor.
137	Republic of Karakalpakstan	Establishment of an aqua park	Number of trips	100000	6,7	78	55	36	Since there is no water park in the area, it is necessary to organize one.
138	Republic of Karakalpakstan	Meat processing enterprise	ton	4200	0,8	60	4	48	Meat products are available in the area, but residents of the area do not consume them. Koldik August products are completely processed and manufactured.
139	Republic of Karakalpakstan	Organization of soap production	a thousand pieces	100	1,1	25	56	24	There are not enough enterprises producing these products in the area.
140	Republic of Karakalpakstan	Organization of ampoule production	million pieces	25	1,8	13	18	36	It is not available in the region, but there is demand for this product in the domestic and foreign markets.
141	Republic of Karakalpakstan	Organization of production of flour products in case of organization of grain cluster	a thousand pieces	20	5,4	63	19	84	The area has cheap labor, increasing electronics and delivering cheap products to the population.
142	Republic of Karakalpakstan	Food waste processing and production of humus and bloodworms from it (food for predatory fish)	ton	3000	2,1	32	48	36	Due to the fact that there are no waste processing plants in the area, the implementation of this project is necessary. This, in turn, contributes to the development of fisheries.

143	Republic of Karakalpakstan	Production of quick noodles	million pieces	2	3,7	80	29	48	This project should be implemented based on the social status and needs of the population of the area.
144	Republic of Karakalpakstan	Production of napkins and toilet paper	ton	6000	2,4	35	76	24	There is none in the area, but goods are brought to the market from other areas.
145	Republic of Karakalpakstan	Production of leather goods	a thousand pieces	40	5,0	100	26	48	A livestock farm will be created on the allocated land in Ustyurd Vokha, and the cultivation of August products will be increased.
146	Republic of Karakalpakstan	Organization of production enterprise of products based on polyethylene	a thousand pieces	4500	0,5	29	25	48	It is not available in the region; it is imported from other regions.
147	Republic of Karakalpakstan	Production of socks	a thousand pairs	93,6	0,1	18	45	30	The region has 10,000 tons of raw cotton and more than 2,000 skilled labor.
148	Republic of Karakalpakstan	Establishment of a milk processing enterprise	liter	100	6,0	30	22	36	There are around 16 thousand tons of raw materials per year, but there are not enough processing plants.
149	Republic of Karakalpakstan	Organization of production of MDF and steel doors	thousand sq.m	10	0,7	60	21	48	The number of cars in the area and the lack of high-quality service companies.
150	Republic of Karakalpakstan	Organization of production of AKFA frames	piece	1200	0,2	3	2	36	The implementation of this project is necessary to meet the demand for building materials.
151	Republic of Karakalpakstan	Establishment of a beauty salon	person	168	0,3	25	25	48	There are not enough modern beauty salons in the area.
152	Republic of Karakalpakstan	Establishment of an enterprise providing computer services	piece	360	0,1	4	62	24	Computer and office in the area. There is no service.
153	Republic of Karakalpakstan	Production of furniture	ton	8070	0,6	76	61	24	There are not enough enterprises producing these products in the area.

154	Republic of Karakalpakstan	Production of confectionery products	ton	8000	0,4	15	18	48	It is necessary to implement this project to meet the needs of the region's population for confectionery products.
155	Republic of Karakalpakstan	Organization of rabbit breeding activities	ton	300	0,5	23	18	48	It is necessary to implement this project in order to satisfy the demand of the region's population for meat products.
156	Republic of Karakalpakstan	Organization of wedding hall activities	piece	400	0,4	22	3	36	Due to the lack of wedding services in the area, the implementation of this project is necessary.
157	Republic of Karakalpakstan	Organization of production of metal products	ton	2000	5,2	40	25	48	There is no car wash in the area, the number of cars in the area is not enough.
158	Republic of Karakalpakstan	Organization of cargo logistics activities	th.km	11,88	0,7	9	17	48	Freight carrier logistics activities have not been launched in the district.
159	Republic of Karakalpakstan	Production of plastic toys for children	Ton/d	1,5	0,7	41	15	60	It is not available in the district, and goods from other districts are imported in the market
160	Republic of Karakalpakstan	Production of carbonated and non-carbonated drinks	liter	2,8	3,9	115	1,57	12	Effective use of groundwater, and provision of quality and filtered drinking water to the public.
161	Republic of Karakalpakstan	Organization of activities of non-governmental preschool education organization and training center	person	15	0,5	50	25	48	The coverage level of MTM in the district is 82.1%. It is necessary to bring the level of coverage to 100%.
162	Republic of Karakalpakstan	CaCo3 (white stone) paper production	ton/day	2	9,4	150	9	56	The calcium carbonate reserve available in the district and the polypropylene product produced by the "UZ-KOR GAS CHEMICAL" enterprise are the main raw materials of the product specified in the project. The demand in the foreign market was taken into account during the development of the project. Stone paper is environmentally friendly, does not require the cutting of trees and the consumption of large amounts of water and energy. It has high water resistance, tear resistance and excellent printing surface. In addition, it can be reused and recycled to meet the demand for UV resistant and sustainable materials
163	Republic of Karakalpakstan	Production of fiber cement panels	sq.m/h	450	6,0	50	8,7	84	The project will require the supply of quartz sand available in the district as the main raw material, and in addition, a mesh made of cement and metal. Based on the current construction statistics in the republic, it is justified that there is a domestic demand for this type of product. Fiber cement panels have a number of advantages that make them a popular choice for a variety of construction applications. They are very durable, resistant to fire, rot, mold and pests, good sound and heat insulation. In addition, they usually have a long service life and can be easily installed and recycled.

164	Republic of Karakalpakstan	Synthetic fiber production	ton/day	25	5,1	50	11,2	24	Polymer products produced by "UZ-KOR GAS CHEMICAL" enterprise and foreign market demand in the textile industry are taken into account. The advantages of synthetic fibers include strength, abrasion resistance, stain and shock resistance, waterproof and moisture-proof properties, as well as the creation of various patterns.
165	Republic of Karakalpakstan	Production of large-scale plastic products	ton/year	3000	7,6	55	23	60	The high-density polymer product produced by the "UZ-KOR GAS CHEMICAL" enterprise is the main ingredient of the project.
166	Republic of Karakalpakstan	Production of glass containers and bottles	peace/hour	20000	12,5	50	17	36	Quartz sand available in the district is the main raw material of the project. Also, these types of products remain in high demand in the domestic market of the country. Glass containers are widely used in hotels, restaurants and households. But according to our import data, these types of goods are mainly sold in the domestic market of the country from China.
167	Republic of Karakalpakstan	Production of ceramic plates	sq.m/day	12000	7,9	50	45	36	The loess loess clay reserve in the district serves as the main raw material.
168	Republic of Karakalpakstan	Production of fish feed from Artemia	ton/year	325	2,9	30	31	36	Artemia salina is currently exported in the district without processing. Due to its processing, the export volume will increase by 3 times.
169	Republic of Karakalpakstan	Production of dried milk from horse and camel milk	kg/h	1100	3,8	30	18	60	The people of the district have knowledge and skills in animal husbandry and the number of goats and camels in the district is also large. But the milk product obtained from them is not processed industrially. The demand for horse and camel milk in the Republic of Kazakhstan has been determined, and in order to export the milk of these types of animals, it is necessary to produce it as dried milk.
170	Republic of Karakalpakstan	Production of mineral and carbonated water	Ton/d	200	3,5	35	19	60	It was found that there is healing spring water in the territory of "Kazogdaryya" OFY. The main raw material of the project is water from that spring.
171	Republic of Karakalpakstan	Establishment of a livestock complex in the direction of milk	liter/day	14000000	4,0	20	20	36	Despite the large number of livestock in the district, the volume of milk products obtained from them is quite low. This project was proposed due to many years of experience of the district population and internal demand.
172	Republic of Karakalpakstan	Production of leather products	ton/year	820	3,3	120	14	60	Despite the large size of livestock, leather products obtained from them are not processed in an industrialized manner. This project was proposed due to internal and external demand.
173	Republic of Karakalpakstan	Production of fodder for livestock	ton/year	45000	2,8	20	23	48	Due to the abundance of livestock in the district and the increase of this indicator, the natural demand for livestock fodder increases. Also, all materials for production are available in the district.
174	Republic of Karakalpakstan	Shrimp and lobster farming	kg/year	185000	1,8	20	16	60	The knowledge and skills of the people of the district, the large stock of artemia salina in the district became the basis for proposing this project. The project will be developed on the basis of the UZV system, that is, it will not affect the water reserves that are currently considered scarce in the district.

175	Republic of Karakalpakstan	Processing of meat products	kg/h	400	2,9	25	21	48	This project was proposed due to the number of livestock in the district and the volume of meat products obtained from them.
176	Republic of Karakalpakstan	Cultivation of rare fish species	ton/year	1050	6,0	100	13	36	On the basis of the UZV system, the share of rare fish species, namely Siberian sturgeon, beluga, coho, grouper, farel, osetra, and salmon, is large in the foreign market. Co-cultivation of these fish groups has advantages in terms of optimizing the use of resources, common technology and control of the aquatic environment, and also these types of fish are mainly exported to neighboring countries. The vast experience of the population in the field of fishing was taken into account for the launch of the project.
177	Republic of Karakalpakstan	Production of artificial marble	sq.m/year	270000	0,8	10	31	48	Calcium carbonate reserves in the district are one of the main raw materials for artificial marble. It differs from natural marble in the domestic and foreign market by its low price.
178	Republic of Karakalpakstan	Production of metal cables	kg/day	1,3	0,7	12	42	36	The raw materials for the project are secondary products made of ferrous metals and polymer products produced by the UZ-KOR GAS CHEMICAL enterprise. Currently, the demand for metal cables with a diameter of 1 cm in construction has increased.
179	Republic of Karakalpakstan	Establishment of sanatorium around "KO'K" reservoir	calculated	75	0,7	20	16	72	The nature of the KOK reservoir differs from other areas of the region. Considering domestic demand, this project was proposed.
180	Republic of Karakalpakstan	Production of latex gloves	piece/year	512000	0,7	11	20	48	Domestic demand for disposable medical gloves remains high. The increase in the number of private medical clinics increases this demand.
181	Republic of Karakalpakstan	Establishment of a 4-star hotel	calculated	100	1,0	30	16	72	The number of foreign tourists coming to the area is increasing, and festivals held in the area increase the demand for hotels that can provide high service. Currently there is not a single high-level service hotel in the area.
182	Republic of Karakalpakstan	Dry milk production	ton/year	1700	1,0	15	17	48	By processing a small amount of dairy products obtained from cattle in the region, the market share of milk powder in the republic was taken into account.
183	Republic of Karakalpakstan	Confectionery production	ton/year	1800	0,8	11	49	36	This project was proposed due to the lack of confectionery production in Moinak and neighboring areas, but the high demand for this type of product.
184	Republic of Karakalpakstan	Production of pumpkin juice	ton/year	3000	0,9	10	26	60	Pumpkin is one of the main cash crops grown in the area. It is based on the presence of entrepreneurs interested in the production of a given type of product and demand in a given area.
185	Republic of Karakalpakstan	Cardboard paper production	Ton/d	15	1,1	10	28	36	The MUYNAK LDSP company launched the production of chipboard products made from reed. During the production process, waste cane products are generated. It has been established that this waste is suitable for the production of cardboard products.

186	Republic of Karakalpakstan	Production of plastic pipes	m/min	18	0,8	15	21	48	The raw material for the project is high-density polyester products produced by the UZ-KOR GAS CHEMICAL enterprise. The demand for plastic pipes in the domestic market has always been high.
187	Republic of Karakalpakstan	Production of sunflower oil	ton/year	800	1,1	10	29	36	The sunflower plant is one of the few products that can be grown in the conditions of the Moink region. The district administration is also conducting a comprehensive campaign to grow this type of plant among the population. Sunflower oil is currently one of the products that has a wide share of consumption among the population of our Republic.
188	Republic of Karakalpakstan	Production of furniture	sq.m/year	40000	1,0	12	21	60	The project mainly produces finished furniture products based on the processing of chipboard products produced by the MUYNAK LDSP enterprise.
189	Republic of Karakalpakstan	Production of liquefied and gaseous oxygen	m/cub./hour	200	0,8	13	17	60	This project is proposed mainly taking into account domestic demand. The project does not require any materials. Currently, industrial enterprises, hospitals and other organizations purchase liquefied and gaseous oxygen in the Bukhara region.
190	Republic of Karakalpakstan	Production of aluminum containers for medical coatings	piece/month	550000	0,7	9	69	24	The production of pharmaceutical products is growing in our country, but the lack of production of pharmaceutical packaging was the basis for the proposal of this project.
191	Republic of Karakalpakstan	Production of sticky candy	ton/year	900	0,7	14	49	36	The demand for confectionery products is the basis for the production of new types.
192	Republic of Karakalpakstan	Production of sanitary paper	ton/month	420	0,7	9	33	48	Sanitary paper comes to the Republic of Karakalpakstan from neighboring regions. When proposing this project, domestic demand was taken into account.
193	Republic of Karakalpakstan	Production of plastic toys for children	ton/day	1,5	0,9	10	36	48	The raw material for the project is high-density polymer products produced by the UZ-KOR GAS CHEMICAL enterprise.
194	Republic of Karakalpakstan	Decorative brick production	ton/day	150-200	0,7	10	27	48	There is a loess-like herd in the area. According to the project, raw materials are extracted from this natural resource.
195	Republic of Karakalpakstan	Production of sandwich glass	m/min	30	0,6	10	80	24	This project was proposed based on the quartz sand reserves in the area. The products produced as a result of the project will cover a significant part of the increased demand due to the ongoing large-scale construction work.
196	Republic of Karakalpakstan	Production of non-alcoholic beverages	ton/month	250	0,9	12	13	60	The production of soft drinks was proposed based on the creation of the Karakalpakstan brand.

197	Republic of Karakalpakstan	Production of beet sugar	ton/day	10	1,7	65	14	36	Beets are grown by residents of the region. The main goal of the project is to increase the cultivation of this type of plant and increase the industrial potential of the area through its processing. Domestic demand for sugar products has always been high.
198	Republic of Karakalpakstan	Production of infusion sets	peace/day	110000	0,8	14	19	48	The production of pharmaceutical products is increasing in our country, but the lack of production of their packaging was the basis for proposing this project.
199	Republic of Karakalpakstan	Flower paper production	kg/day	2400	0,8	10	15	48	Polymer products are produced by "UZ-KOR GAS CHEMICAL" and are the main raw materials of the project. Demand for floral paper products has always been high in the domestic market. Also, the fact that the production technology of flower paper products is not complicated, the shelf life and the absence of a sales season became the basis for offering it to the residents of the region.
200	Republic of Karakalpakstan	Production of sockets and switches	peace/day	3000	1,0	11	20	48	The PVC product produced by the "UZ-KOR GAS CHEMICAL" enterprise is the main raw material of the project and there is a high demand for this type of product in the domestic market.
201	Republic of Karakalpakstan	Artificial turf production	kg/h	600	0,7	10	33	48	The PVC product produced by the "UZ-KOR GAS CHEMICAL" enterprise is the main raw material of the project and there is a high demand for this type of product in the domestic market.
202	Republic of Karakalpakstan	Production of wool yarn and felt fabric - felt	ton/sq.m/piece	450/900/60000	6,0	30	9,6	49	Currently, there are 153,331 head of sheep and goats in Takhtakupir district, and these are considered the main raw material base for processing. The sales market consists of production enterprises and the needs of the population
203	Republic of Karakalpakstan	Autoclave production of gas blocks	piece	2000000	5,2	20	9	44	Sand, lime, cement and aluminum powder are purchased from the domestic market. The finished product is also sold in domestic construction markets.
204	Republic of Karakalpakstan	Organization of recycling of used tires	ton	1500	0,3	10	6	31	Old tires are disposed of, and the wire and rubber studs are removed from them
205	Republic of Karakalpakstan	Organization of a sweater weaving workshop	piece	21120	0,2	5	17	30	Yarn is purchased from the domestic market and the finished product is also sold to the local market.
206	Republic of Karakalpakstan	Organization of a modern ECO-market complex	playground	2000	8,0	30	16	50	There is a need to build a centralized large trade complex in the district that meets market demand and meets the seller and the buyer. In proportion to the physical size of the market, the number of its participants and the amount of trade also increases.
207	Republic of Karakalpakstan	Organization of a solar photovoltaic station	MWT	20	18,0	24	10	72	There are 300 sunny days in 1 year. Satisfying the energy needs of residents and legal entities. Including the organization of electrical infrastructure for eurodomics and other objects that will be organized around KARATERENG ash

208	Republic of Karakalpakstan	Creation of a wind power plant	KWT	175200000	20,0	22	14	63	In this area, strong winds are observed almost every day. The sales market consists of energy needs of residents and legal entities
209	Republic of Karakalpakstan	Creation of a tourist zone in Kul Buey	million dollars	3000	5,5	20	17	50	For local and foreign tourists, eurodomics - A-frames and Barnhouses are organized outside of local tents. This project is considered a part of gastronomic tourism. In this area, it is possible to relax in the wild nature, live in local tents and Eurodomics, go fishing and enjoy fish dishes.
210	Republic of Karakalpakstan	Production of glass beads from quartz sand grains.	conditional unit	150000	1,2	20	19	30	Quartz sand reserves are approximately 1,200,000 m3
211	Republic of Karakalpakstan	Production of synthepones	ton	4500	3,0	22	15	34	PET bottles and straws are processed and sold to textile and construction enterprises.
212	Republic of Karakalpakstan	Construction of a modern hotel	million dollars	50	1,2	15	17	49	Currently, there is no hotel that meets the requirements of the time. Guests from the city of Tashkent and other regions are forced to come to the city of Nukus, 120 km from the district, to spend the night in good conditions.
213	Republic of Karakalpakstan	Oil production plant	liter	100000	5,0	12	8	36	Cotton seed oil is produced from the cluster's cotton and sold to the domestic market
214	Republic of Karakalpakstan	organization of livestock farming by pasture method	meat / milk kg	120 000/ 350 000	3,0	10	17	33	There are 1,430,277 hectares of pasture in the district, which produces enough fodder to feed 2,000 head of local cattle. The sales market is always in high demand.
215	Republic of Karakalpakstan	Opening of the Kungil shopping complex from outside (Hypermarket)	customer	90000	1,2	12	14	35	In the center of the district with 40,000 inhabitants, there is a tendency to a modern shopping complex.
216	Republic of Karakalpakstan	Production of domestically produced polypropylene film and polycarbonate sheets.	sq.m	100 000 / 40 000	1,1	12	15	34	UzKorGasChemical polycarbonate granules are used. The finished product is sold to the population and enterprises.
217	Republic of Karakalpakstan	Car charging station	car	125000	1,1	4	38	16	The need to ensure the popularization of electric cars in the territory and
